OVATIONS TO ROOSEVELT

The Colonel Spoke Yesterday at Leadville, Salida, Canon City, Florence.

DEMONSTRATION AT PUEBLO

Magnificent Greeting Given the Governor at the Culmination of His Tour in Colorado.

"Remember that in this union there can be no division of either honor or interest on state lines. We will all go up or down together. We will go up or down as regards material prosperity and we will hang our heads or hold them high accordingly as the American flag does or does not stand in the future as it has stood in the past as a symbol of honor, of greatness, of truth and liberty. When, in 1893, hard times came, they came in New York, Colorado and California alike. When, in 1897, prosperity returned, it returned to the Rocky mountains as it returned to the seaboard states of the Atlantic and Pacific. It returned to the farmer, the ranchman, the wage earner, precisely as much as to the business man. There can be no permanent lines of well-being on the one hand for some of our people, and adversity on the other hand for the rest of our people. Fundamentally we will go up or down alike. Now, when it comes to the question of the honor of the flag the same considerations hold true."—(Roosevelt's Speech at Leadville.

Special to the Gazette by H. S. Rogers.

Pueblo, Sept. 27.—Col. Roosevelt's triumphal tour through Colorado continued today. The special train did not leave Cripple Creek until after 1 o'clock last night, and special care was taken to guard it because of the trouble at Victor. The night passed, however, without incident.

This morning Gov. Roosevelt awoke to find the train at Spinney in the South Park, but the mist of clouds prevented a view of the beautiful surroundings. A fast run was made to Leadville without stop.

Roosevelt's Comment On Victor.

Gov. Roosevelt said this morning that he felt none the worse for his experience the night before and spent a good night. Speaking of the Victor incident he said:

"I think the opposition played into our hand. It is strange that people do not know that such demonstrations injure their cause. I have met with it before."

Marshal Bailey has been keeping count of the audiences and he estimates that Gov. Roosevelt has addressed or been seen by more than a hundred thousand people in Colorado.

Reception at Leadville.

Leadville was reached shortly after 11 o'clock this morning. At Arkansas Junction the Leadville committee boarded the train. On the committee were Mayor J. F. McDonald, chairman; Mr. Fahnstock, Rev. Mr. Fleming, A. Sherwin, B. F. Follett, H. J. Higgins, J. F. Campion, S. W. Modd, R. B. Estey, C. L. Hill, J. H. Waddle, C. E. Dickenson, S. M. Brown, C. B. Carter, H. D. Milton, F. G. White, S. D. Nicholson, Charles Cavender, E. L. Daniels, J. C. Hume, T. A. Dickson.

When the train arrived at Leadville it was seen that the preparations for the entertainment were most elaborate. The visitors were placed in carriages and a parade was formed. It ended at East Fifth street and Harrison avenue. A grand stand had been erected in the middle of the street, and gathered about it were fully 5,000 people. They remained listening for an hour and a half. It was the best outdoor meeting that Mr. Roosevelt has had.

The chairman was Chaplain Fleming of the First Colorado, who made a plea for fair play.

Senator Wolcott, in opening the meeting, referred to the early days of the place and what it has since become. He sprung a good joke by declaring that the Democratic party is like Leadville, in that the best of it is under ground.

Mr. Roosevelt's Address.

Towering above Gov. Roosevelt on the courthouse was the statue of liberty. He leaned on a Rough Rider saddle as he spoke. Mr. Roosevelt made his well known arguments for fairness in politics and the honor of the flag. It was one of the most elaborate addresses he has made in the state. He declared the only danger to the country is from within, and his remarks on anarchy and disorder tending to tyranny were timely and effective.

Short speeches were made by A. M. Stevenson, Senator Lodge, Governor-to-be Goudy, Curtis Guild of Massachusetts, General Hale and others. All the speakers were much applauded.

Only a short stop was made at Granite, but at Buena Vista Mr. Roosevelt spoke for five minutes.

At Salida.

Salida was the largest town between Leadville and Pueblo, and the party left the train for a platform built on the depot grounds. A crowd of 2,000 or 3,000 people had gathered to hear the governor. The meeting was very much disturbed by a number of small boys, who had gathered on the roof of a building. They let Col. Roosevelt conclude his remarks, in which he plead for orderly liberty and free speech. Mr. Goudy attempted to speak, but the noise became so great that he cut it short and the meeting was dismissed.

Canon City.

At Canon City there was a fine demonstration. Hon. C. C. Dawson presided over the meeting, which was held in the little park near the depot. It was a most satisfactory meeting, most of the people evidently being in sympathy with the speakers.

Mr. Roosevelt was in a happy vein and repeated some of his Leadville speech. He declared the paramount issue is to keep our own self-respect individually and as a people, the right of free speech and political discussion. He took a little shot at Colorado politicians when he said that the worst enemy of the people is the man who sits in luxury and incites to acts of communism, be they editors or politicians. Mr. Roosevelt predicted a deeper and more widespread panic than ever known before if the Democratic party prevails in the coming election. When Bryan picks the beam out of his own eye in accepting profit in those states where the negro vote is suppressed, then he will be in a position to express sympathy for the people in the eastern islands.

Florence.

It was getting dark when the special rolled into Florence, and it looked as if the entire population had turned out. Mr. Roosevelt addressed them from the back of the train. It was largely a crowd of working people and very orderly.

A committee of 33 Puebloans boarded the train at Canon and welcomed the governor. Dennis Walpole was the chairman of the committee.

MAGNIFICENT POLITICAL DEMONSTRATION IN PUEBLO

Written for the Gazette by H. S. Rogers.

The most magnificent political demonstration that your correspondent has ever witnessed in Colorado was that tendered Governor Roosevelt last night at Pueblo. It was a magnificent close to the triumphal tour of Colorado that has taken the past three days to accomplish.

The special train reached Pueblo at 7 o'clock and it was a glow of red lights and electric globes. The whistles tooted and the bells rung. At the depot the party was placed in carriages and immediately went to its place in the line of parade. A half hour later the parade was moving up Union avenue. The streets were lined with shouting people and were as bright as day for the reason that great strings of lights hung at each corner from the depot to the opera house.

Extensive Parade.

The parade was extensive, occupying a half hour or more in passing a given point. The people of Pueblo had been helped out by many visiting clubs from near-by cities. The parade had many fine bands of music, and was led by the famous Cowboy band. Then came the mounted campaign club of Pueblo, which made a fine appearance as they wore the Rough Riders suits. A company of uniformed infantry followed, headed by the W. of W. drum corps. The big McKinley and Roosevelt Marching club followed this. Gov. Roosevelt and the visitors came in open carriages, and the governor stood up, bowing continually.

In the division following the speakers, Mr. L. C. Dana of this city was assist marshal. In this was the Colorado Springs Flambeau club, numbering about 25 persons. They made a fine appearance and attracted a great deal of attention. Capt. Shapcott had them well in hand and the club executed many pretty movements. The club returned home last night on Senator Wolcott's special train.

The parade ended at the "grand stand," where Governor Roosevelt reviewed the line. Here was assembled a mighty throng of people. It is safe to estimate it at not less than 4,000, for they were packed in like herrings.

Expiring Gasp of Bryanism.

Senator Wolcott took charge of the meeting and did most of the speechmaking because the doctor had told Mr. Roosevelt not to speak at night in the open air. It was a pretty wild crowd that the senator faced, and for a few minutes it was give and take with him and the Bryan people in the enclosure. He replied to one interruption by saying that he could tell the difference between a Democrat and a Republican because the Republican never interrupts a meeting and a low down Democrat will.

He declared the interruptions were the last expiring gasp of Bryanism in this state. The governor of the state had invited every hoodlum in the state to insult the distinguished governor of New York.

Governor Roosevelt spoke less than two minutes, and particularly advised the people to respect themselves. Afterwards Mr. Goudy and others spoke and held the crowd well.

After leaving the grand stand Mr. Roosevelt and the others went to the big hall where the headquarters of the Republicans have been located in the Board of Trade building. This was packed with hundreds of people and short addresses were made there.

The Closing Address.

The last meeting and the last address of the governor were at the opera house. The handsome building had been liberally decorated with the national colors. From the center of the stage hung a big bass drum with a picture of Roosevelt in the head. Around it were electric lights, and as Mr. Roosevelt came on the stage they were lighted.

ASSOCIATED PRESS REPORT OF THE JOURNEY.

Pueblo, Sept. 27. When the special train bearing the Roosevelt party arrived at this place this evening the station was crowded with people to see the governor. The reception committee with carriages escorted Governor Roosevelt, Senators Lodge and Wolcott, John Proctor Clark of New York, General Curtis Guild, Jr., of Boston, and General Irving Hale, to Royal park, where a procession was formed and marched through the principal streets of the city. On the way the streets were lined with people. Three evening meetings were arranged for and all of them were attended by large audiences. During the day at the various stopping places the crowds were remarkably large and an unusual interest attended the meetings.

Governor Roosevelt in his speech at Leadville, today, said in part:

"I cannot say how I have enjoyed the privilege of coming through your great and beautiful and wonderful state, and now to be in what is the most famous mining city of the entire habitable globe. Glad though I am to see your state with its varied resources, with mountain and plain, with mine and ranch, I am more pleased still to see the men and women who made it what it is. When I came out here among you I felt that I came not to teach you Americanism but to teach you the doctrine of work, of honorable striving and honorable effort and to follow where you have led the way. I want you to think for yourselves.

"Supposing that the Republican party had done what our opponents desire us to do now, that is, abandon the Philippines? They would now be denouncing us in extravagant terms and blaming us, all of them, from Mr. Bryan down. In that case they would have been as right as they are wrong now. I come before you to ask your support for the principles we represent upon two great grounds; upon the ground of self-interest of each and all of us, and upon the ground of our feelings for that symbol of greatness, the American flag that floats over us all.

"Remember that in this union there can be no division of either honor or interest on state lines. We will all go up or down together. We will go up or down as regards material prosperity and we will hang our heads or hold them high accordingly as the American flag does or does not stand in the future as it stood in the past as a symbol of honor, of greatness, of truth and liberty. When, in 1893 hard times came they came in New York, Colorado and California alike. When, in 1897 prosperity returned, it returned to the Rocky mountains as it returned to the seaboard states of the Atlantic and Pacific. It returned to the farmer, the ranchman, the wage earner, precisely as much as to the business man. There can be no permanent lines of well-being on the one hand for some of our people, and adversity on the other hand for the rest of our people. Fundamentally we will go up or down alike. Now, when it comes to the question of honor of the flag the same considerations hold true."

At Canon City Gov. Roosevelt spoke in part as follows:

"For the last three days I have been having a holiday for I have been going through your wonderful commonwealth. I have just finished up with the marvel of nature, the gorge of the Arkansas.

"There has been some talk as to what the paramount issue is in this campaign. Now, I will tell you, and I have made up my mind within the last 48 hours (Laughter) what the paramount issue is. The paramount issue is to keep the orderly liberty that has made us what we are. The paramount issue is to keep our national self-respect by each individual keeping his own self-respect and respecting his fellows; keeping the right of free speech, keeping the right of political discussion so that we may be able to settle our political differences squarely and fairly after a full hearing given to anyone whatever his views may be, if he expresses them decently and in proper language.

"There is danger of imperialism, aye, but it is not from the direction in which Mr. Bryan is looking. There is no danger in the regular army—the regular army of eighty-one-one hundredths of a soldier for every 1,000 citizens of this great republic. No, no. We have not yet reached that pitch of timidity when we are afraid of that. There is no danger of militarism. There is no danger of imperialism from this country starting out on the path our fathers trod to do the work of a great world power. The only danger of imperialism that will ever come in this country is if it is invited as a reaction against anarchy. Anarchy is the handmaiden of tyranny. If we grow to substitute lawless mob violence for the orderly liberty that we enjoy under the law, if ever we grow to substitute the rule of brutal force for the rule of the ballot, where the ballot is cast freely and counted as cast, if ever we grow to exchange for government by debate in the legislatures of the country and on the stump; if we ever grow to exchange for those, the violence that finds expression either in word or deed, then we will indeed be within a measurable distance of losing our liberty. Then, and not till then, the worst thing this country can have is the man sitting at ease at home, exciting other men who are ignorant to deeds of violence and whether this exciting of violence be by a politician or the editor of a newspaper, the effect is the same."

At Salida an organized attempt was made by a small minority to interrupt the proceedings. This mob was composed mostly of boys from 12 to 18 years of age, with a few men, who cheered for Bryan and cheered so as to interrupt the speakers. Gov. Roosevelt succeeded in making his speech without serious difficulty, but other speakers were not so fortunate. One of the youngsters being asked why he was so disorderly stated that he was hired to do so. They wore uniform caps and acted in concert.

THE VICTOR MOB

Peoria, Ill., Sept. 27.—Just a short time before final adjournment today the national association of postmasters of the first class did the only sensational thing of the entire session of three days.

Postmaster A. W. Wills of Nashville, Tenn., secured the sanction of the convention to the following telegram to be sent to Postmaster Daniel Sullivan at Cripple Creek, Colo.:

"Greetings from the postmasters of the first class in convention assembled at Peoria, Ill., to Postmaster Daniel Sullivan of Cripple Creek for his heroic efforts, assisted by others, in defending the life of that grand patriot, Governor Roosevelt, in the cowardly assault made on him at Victor, Colo., by an angry mob of dastardly cowards."

The motion authorizing the secretary to send the telegram was passed with a whoop.

Silver 62¾; brokers' price for lead $4, for copper $16.87½; silver in London closed at highest price since March, 1897, and the India price is still rising.

New York stocks made noteworthy advance in prices; money on call steady at 1½@2.

Chicago wheat closed firm, October ¼ higher at [illegible].

ARRANGING A SETTLEMENT

President Mitchell Admits that Operators Have Made Offer.

DEVELOPMENT IN COAL STRIKE

An Effort Made by President Mitchell to Draw the Soft Coal Miners Into the Contest.

Hazleton, Pa., Sept. 27.—The Associated Press at 10 o'clock tonight secured from President Mitchell the admission that he believes that the mine operators have agreed to make the striking mine workers an offer of an increase of 10 per cent in wages. Further than this Mr. Mitchell declines to talk. He has been reticent all day on the subject and several times declared that he knew nothing of the rumors of a settlement of the strike.

Hazleton, Pa., Sept. 27.—President Mitchell of the United Mine Workers, today sent a telegram to the central Pennsylvania bituminous coal fields, which will possibly have the effect of bringing the soft coal mine workers into the contest which the anthracite workers are now waging against the mine owners. This telegram was sent to Richard Gilbert, secretary of district No. 2, Clearfield, Pa. It was as follows:

"Issue circular letter instructing all mine workers in Central Pennsylvania that they are not to load coal for shipment into markets formerly supplied by anthracite operators. We are informed that the Philadelphia & Reading, Delaware & Hudson and Jersey Central railroads are now attempting to defeat anthracite strike by sending their cars into central Pennsylvania to have them loaded with bituminous coal. Please comply with this request at once."

President Mitchell said that he had been watching the bituminous coal field closely for just such a move as he alleges has been made by the railroads mentioned in his telegram, and he does not fear that they will make much of a success in getting the soft coal into the anthracite market.

Sympathize With Fellow Workmen.

The miners in the central Pennsylvania region, it continues, are in thorough sympathy with their fellow workmen in the eastern [illegible] and President Mitchell feels sure that as soon as they find that the coal they may be loading or asked to load is to take the place of hard coal they will refuse to handle it.

Labor leaders do not anticipate any suspension of work in the soft coal field unless the operators insist upon sending their coal to the anthracite market. They also say that the Philadelphia & Reading, Delaware & Hudson, and Jersey Central railroads, being unable to fill their contracts for hard coal, are prevailing upon their customers to accept the soft coal wherever it can be used as a substitute.

Considerable interest is being manifested as to the effect of President Mitchell's action in attempting to defeat the alleged movement of the coal carrying roads.

Rumors of Settlement.

This was a day of rumors. Around strike headquarters there were stories in circulation that Archbishop Ryan and Senator Hanna were coming here to see President Mitchell; that all the coal carrying roads had agreed to arbitrate all differences and that the strike had been settled. The last mentioned rumor was the only one which the labor leaders paid any attention to and in connection with it they sent a telegram to the president of the union in the three districts comprising the entire anthracite coal fields of Pennsylvania. The telegram is as follows:

"Report is current that operators have made concessions in wage scale and will attempt to induce mine workers to resume work. Please advise all miners in your district that no attention should be given to these reports and that they will be officially notified should any offer of settlement be made. Under no consideration whatever should work be resumed unless authorized by a convention representing all mine workers in the anthracite district. It is vitally important that all miners stand firm and determined and not be deceived by those whose interests it is to defeat the purpose for which the strike was inaugurated."

Mitchell Denies Knowledge.

In speaking about the rumors of a settlement, Mr. Mitchell said the strike could not be ended without him knowing it, and that he had no knowledge of any effort that might now be in progress which would lead to an immediate settlement.

Mr. Mitchell's attention was called to a dispatch in which J. P. Morgan is credited with saying that he (Mitchell) would accept a 10 per cent advance. Mr. Mitchell said:

"It is absolutely untrue. I am not empowered to accept anything less than what the miners in convention decided to ask for. Anything under those demands must be acted upon by a regular convention of delegates representing the anthracite miners."

Mr. Mitchell also denied having any knowledge of the opening of negotiations mentioned by President Truesdale, of the Delaware, Lackawanna & Western road. He does not know who third person is whom Mr. Truesdale speaks of, and says that he has not been approached in any way.

Entire Region Quiet.

The entire Hazleton region was quiet today and the only notable change in the strike situation was at the collieries of G. B. Markle & Co. As predicted by the strike leaders yesterday, there was a considerable reduction in the forces working at the various collieries operated by this firm.

The strikers say that the mines are practically idle while all that the general superintendent of the mines would say that the collieries were started as usual today. Of the 30 odd collieries in this region, 13 are completely tied up and the remainder are more or less crippled, not one running full, not many of them having mined any coal to speak of since the strike started.

IMPORTANT GAINS IN THE SHENANDOAH REGION

Shenandoah, Pa., Sept. 27.—Today's developments in the strike situation in this region showed important gains on the part of the mine workers: Two big collieries in the Ashland district, controlled by the Philadelphia & Reading Coal and Iron Co., were compelled to close and a third worked with a crippled force. The Locust Spring colliery, at Locust Gap, nine miles from Ashland, was unable to work owing to the small number of men who reported. This operation ordinarily employs about 1,500 men and boys.

The Bast colliery, at Locustdale, closed this afternoon and the Potts colliery at Big Mine Run, worked with a small force. It is estimated that 1,500 men are employed at these two mines. The union mine workers of the Ashland district say they have been willing for some time to strike, but were restrained by lack of organization. A branch of the union was formed last night. Organizer Fahey will address a meeting of the miners at Ashland tomorrow night.

In the territory between Shamokin and McAdoo there is but one colliery at work, the North Franklin at Treverton, and this is said to be shorthanded. In the Mahanoy district all the collieries are tightly closed. Every breaker at Mahanoy City has been cleaned out of coal and the trade there must now be supplied from other points.

There is no change in the situation here tonight. Not a ton of coal mined in Shenandoah today.

ARAPAHOE DEMOCRATS

Independent Members of the Party Decide to Name a Straight Ticket.

Special to the Gazette.

Denver, Sept. 27.—The committee appointed by the straight Democratic convention this morning to nominate a full county and judicial ticket have been in session since 11 o'clock. They are mapping out a plan of procedure which is as follows: The ticket will be named and headed "Democratic ticket." It will then be filed with the county clerk. Should he refuse to place the ticket on file for the reason that one ticket bearing the same name has already been filed, suit will be brought immediately in Judge Le Fevre's court to compel him to allow the ticket to be filed. The suit will be the test as to which side has acted legally during the controversy. In all probability the case will be carried to the supreme court.

Both sides seem confident of winning, but each admits that it means a Republican victory if both tickets are kept in the field.

The Maloney people have received their first disappointment in the fact that the Post, whose support they expected, has declared itself as supporting a mixed ticket of its own, chosen from all the tickets previously named.

At this hour it is impossible to learn what is detaining the report of the committee.

CONVENTION PROCEEDINGS.

That all Democrats will not swallow the fusion pill as prepared in Arapahoe county last week was demonstrated this morning. The regular Democrats met in the Denver theater and held a convention of their own.

There were no long debates, no fights, no policemen and no fusion committees. The convention was noted for its good order and rapid dispensing of business.

With an unpopular fusion ticket and a bolting Democratic ticket both in the field there is little doubt that the Republicans will carry the day.

The name and emblem adopted today are the same as adopted by the Democratic convention last week so in all probability a legal fight will follow.

It was just 10:25 when County Chairman Maloney called the 300 assembled delegates who represent the regular Arapahoe Democratic county convention to order. He stated that Mr. Keating had refused to act any longer as temporary chairman and that it was necessary to elect another. Consequently John J. Ryan was selected. Upon assuming the duties he said: "I thank you for the honor conferred upon me and in view of the fact that we have so much business to perform I will desist from making a prolonged speech."

The committees as appointed at the session in the Broadway theater two weeks ago then reported.

A Committee On Nominations.

The report of the committee on rules and order of business provided for a special committee of seven to be appointed to make all nominations. The following report was adopted and the following were appointed: Hon. T. J. Maloney, Andy Kelly, Mat Murray, John Ryan, F. E. Carstarphen, James Campion and John McGowen. Later this committee was instructed to make nominations for the judicial ticket also.

The committee on resolutions then reported as follows:

The Resolutions.

"The Democratic party of Arapahoe county, in convention assembled, renews its allegiance to the fundamental principles upon which the party is founded, which are closely set forth in the platform adopted at the national convention at Kansas City and more recently the platform adopted at the Colorado Democratic state convention at Denver. Upon the burning questions of imperialism, free silver, militarism and trusts we take the position for the right as outlined in those platforms and also declare unswerving faith in our peerless leader, William J. Bryan, and his running mate, Adlai E. Stevenson.

"We indorse the ticket put in the field by the Democratic state convention and pledge ourselves to its hearty support.

"Believing in the lasting principles of true Democracy we favor home rule for Denver, directing our efforts more particularly to the removal of the members of the fire and police department from the control of the governor of the state."

The original county committee was then declared permanent and they were instructed to elect their own chairman. The words "Democratic Party" were chosen to head the ticket. There being no further business the convention adjourned.

The Convention Call.

The following is the report of the committee that was the cause of the second convention being called:

Denver, Colo., Sept. 24, 1900.

To Hon. Edward Keating, Chairman Democratic County Convention:

Dear Sir—We, your committee appointed to take action in regard to the county ticket desire to state that the ticket already nominated by the meeting at Coliseum hall is such that we dislike to assume the responsibility of endorsing same, and most respectfully request you to reconvene the Democratic county convention, that it may take such action as it seems proper. Respectfully,

T. J. Maloney.
Frank Leary.
Andrew Kelly.
M. J. McCarthy.

Mr. Speer's Comment.

When asked by a Gazette representative for his opinion of the straight Democratic convention held today Hon. Robert W. Speer said:

"I think but very little of the so-called convention. I do not care to be interviewed at length but you can say that in my opinion it will cut but very little figure in the county or state elections. We expect to go right along and pay no attention whatever to it as it will not amount to a thing."

Telephone line to Las Animas is nearly completed.

Bent county cantaloupe season lasted 50 days, during which time 45 carloads were shipped.

Republicans of Mesa county have nominated L. H. Brown for representative and Frank Collins for county commissioner.

GERMANY IS UNSUPPORTED

Powers Refuse to Postpone All Peace Negotiations.

INSTRUCTIONS TO CONGER

Do Not In Any Way Involve Action on Part of Other Powers but Afford Opportunity.

Berlin, Sept. 27.—From two high diplomatic sources it was learned today that all the answers which have been received to Germany's proposition have one feature in common. While accepting in principle the demand for a proper punishment of the ringleaders, they refuse to postpone all peace negotiations until after the settlement of this one point. Therefore The replies of Japan and France are in agreement as to this. It cannot be truthfully said that Count von Buelow's latest move has proved an unqualified success.

The foreign office told the correspondent of the Associated Press this afternoon that Great Britain's answer has not yet arrived.

Washington, Sept. 27.—Minister Conger has been advised by the state department of the substance of the replies made by this government last Friday to the governments of Germany, Russia and China, respecting China, which clearly indicate to him the general nature of the instructions he is to receive. Moreover by this time, he is informed of the orders issued to General Chaffee to reduce his force to a legation guard.

The note to China specifically pointed out the lines on which this government will issue its instructions to its minister. The document itself is in course of final approval, Acting Secretary Hill having completed the draft some days ago and forwarded it to the president. It was the belief at the state department late this afternoon that the actual transmission of the instructions would be carried out very soon, probably within the next 12 hours. It is said that the text of the instructions will not be given publicity at present for diplomatic reasons but there is no concealment of the general scope of the document, which is on the lines laid down in the three notes. In this connection it is said at the state department that Mr. Conger will put those negotiations in motion without any purpose of acting for any government other than the United States, although the government steadily keeps in mind that the United States is but one of several nations mutually interested in obtaining a common end, and it is hoped that the effect of Mr. Conger's making a beginning toward negotiations may be to induce other powers to follow. At the same time the government has never assumed to lay down any mandate as to the course to be followed by all or any of the powers.

It is believed that the state department already has taken steps through Minister Wu to impress upon the Chinese government the undesirability of the appointment of Prince Tuan as grand secretary, and the painful impression this appointment has created throughout this country. The effect of his appointment, if persisted in, it is said, might be to retard seriously the final negotiations, or, in fact, any negotiations at all.

The government feels that it is much reinforced in its present position by the note from Li Hung Chang in which he gave positive assurances to the United States that he had sufficient authority to protect all American interests, and would see that this authority was exercised. The government now looks upon this assurance as a guarantee which must be faithfully performed as a condition precedent to even the establishment of relations with Li and Prince Ching. If the appointment of Tuan promises to obstruct the performance of this pledge in any manner then it would be clearly violative of the guarantee laid down and would warrant the immediate withdrawal of Mr. Conger from further relations with the Chinese envoys. So it appears that much more depends upon what Tuan does than upon what he has done.

MR. BRYAN HAS STARTED ANOTHER CAMPAIGN TOUR

Omaha, Neb., Sept. 27.—Mr. Bryan made the first stop of the day at Papillion, the county seat of Sarpy county. In order to make the point in time for the meeting Mr. Bryan left the Rock Island train at Richfield and drove a few miles across the county. The county is strongly Democratic and the national candidate was cordially received. He contended that the policies promised by the Democratic party were in the interest of the people throughout while those of the Republican party were antagonistic to the public welfare. Especially, he contended, was the Democratic plan of government in the interest of the farmer. He said:

"You have had a Republican administration for four years and now you are to decide whether you are going to re-employ the president. You have had a Republican congressman in this district and now you are to decide whether you are going to re-employ him. You have had state officers and you are going to decide whether you are going to re-employ them; you are to decide whether you are going to re-employ Senator Allen or some other man; whether you are going to employ two men to enforce the doctrines for which the fusion forces stand or, whether you will employ some Republican senator to legislate for the corporations while he is in the senate and act as attorney for the Standard Oil company, while the senate is not in session.

"The Republican party assumes that it brings everything good and refuses to take the responsibility for anything bad. It claims the blessings that are given to us by the Almighty and shirks the responsibility for everything that Hanna brings us."

Speaking of the trusts, Mr. Bryan said:

"Mr. Hanna made a speech recently in which he said that there are no trusts in the country. Are you going to start a man out to destroy the trusts who says there are none? You know there are trusts and that they are able to raise the price of what you buy, and if you are producing raw material which they have to buy they are able to control the price of what you sell them and they can control the wages they are to pay. You know of these trusts. Why doesn't the Republican party destroy them. You have had a Republican president for three years and a half and you have had three sessions of congress convene and adjourn, and yet the Republican president has not recommended one specific measure for the destruction of the trusts."

In regard to the large standing army issue, he said:

"I have been criticized because I suggested that they wanted to tax the people to support an army of 100,000 in idleness and I am accused of saying that our army is idle. Let me ask those who desire to criticize that statement, 'What does the army do?' The Republicans say that the Philippine war will soon be over and what is the army going to do then? It simply kills people, that is all. It is better to have an idle army than it is to have one shedding blood all the time. You Republicans who do not like to have an idle standing army must find something for the army to do and you had better take my view of it because when your army is employed it means bloodshed and war and the only excuse that it is not to be idle is that it must be engaged in the prosecution of war."

NEWS ITEMS FROM VICTOR

Cowardly Assault on the Editor of the Record.

WAS A SEQUEL TO THE RIOT

Attack Made Upon Governor Roosevelt's Party Generally Condemned Regardless of Politics.

Victor Bureau
Colorado Springs Gazette

Victor Sept 27—The attack made yesterday by a party of toughs upon Gov Roosevelt and his party is condemned by people generally in this city regardless of their political affiliations The miners particularly especially those of the better class although they are generally Democrats or at least silver men condemn the attack in unmeasured terms

As a sequel to the difficulty yesterday a personal attack was made upon F [...] Briggs editor of the Daily Record by [...] E Carr a miner Mr Briggs had a lengthy editorial in his paper this morning in which he discussed the disgraceful affair quite exhaustively Among other things he stated that a few [...] women shook rags in the very faces of the guests The rags referred to were the banners which some of the rioters carried Carr's wife was one of the women who carried a banner and Carr took this remark as an individual insult to his wife He entered the Record office this forenoon and found Mr Briggs writing a news item which Father Downey pastor of the Catholic church was giving him Carr said that he wanted to see the editor Mr Briggs informed him that he [...] that position when Carr told him that he wanted the statement [...] above retracted He said that the statement reflected on him and his wife Mr Briggs told him that he knew neither him nor his wife and that there was nothing to retract Briggs remained seated at his desk On his refusal to make the retraction Carr struck him a blow with his fist on the back of the head Briggs then arose and while he was getting up Carr struck him another one Briggs replied with a right swing when Father Downey who is a pretty good man physically himself separated the editor and the miner This ended the affair there being no arrest made nor any further trouble during the day

THE NEWS OF CRIPPLE CREEK

Two Men Killed by Cave-in on Vindicator No. 1

POPULISTS THROWN DOWN

Democrats Again Refuse to Accept a Peoples Party Candidate and Complete a Ticket.

Cripple Creek Bureau
Colorado Springs Gazette

Cripple Creek Sept. 27—A cave in in a stope on the eighth level this afternoon of the Vindicator No 1 resulted in the instant death of Gus Krohne and Thomas Cannon, two timbermen, and injured Arthur Engledow who was working a machine drill There were about 15 tons of earth and rock which fell upon the two men A force of men was set at work at once to excavate for them the work not being completed until 5 30 o'clock this evening

As Engledow relates the incident the accident was due to the negligence of the two timbermen The men were in the act of placing a stull and were standing on a stull Engledow says he warned them of a heavy piece of ground on the hanging wall which appeared to be loose and told them it should be propped first They gave no heed to his warning and while they were standing on the stull a rock fell from the point referred to knocking the support from under the stull precipitating them to the bottom the large pile of earth and rock falling upon them After the bodies were uncovered Coroner Dunn removed them to his undertaking rooms in Victor and later Cannon's body was taken in charge by Oscar undertaker of Cripple Creek On inspection it was found that the bodies were bruised in numerous places and a number of bones broken Cannon was a man of 60 years of age and resided in Anaconda where he leaves a wife to mourn his loss Krohne was 24 years of age unmarried and resided at 107 Spicer avenue Victor His relatives live in San Francisco and have been notified of his sad death The date for the funerals have not been fixed Engledow the machine man was bruised in a number of places but not seriously injured the worst injury being a scalp wound

Inebriates in Luxury

About 10 o'clock this forenoon, two men who had very much the appearance of being hoboes while in a state of intoxication entered the National hotel took the elevator to the fifth floor and took possession of room 536 Their names are John W Moore and James McCauley and reside in a cabin on Bull hill and are said to be miners by occupation While they were enjoying the luxurious apartment James Lawler head porter of the hotel came to the room and asked them what they were doing there McCauley said that Moore had invited him up there to his room Moore told the porter that McCauley had invited him up there Moore was lying on the bed while McCauley was exploring the contents of the bureau at the time the porter arrived

The explanation which the inebriated men gave for their presence in the room did not suit the porter who forthwith called an officer and the men were soon in the enjoyment of apartments in the city jail Warrants were sworn out before Justice McCullah who gave them a preliminary hearing this afternoon and bound them over to the district court, fixing their bonds at $500 each which they were unable to give and they were again remanded to jail

Populists' Throw Down

The conference committees of the Democratic Silver Republican and Peoples party met in the city hall this afternoon for the purpose of effecting a compromise on the senatorial and representative tickets The committee of five from the Peoples party insisted that James L. Wallace of this city should go on the ticket as candidate for representative The committee from the Democratic party refused to accept this proposition not from any dislike of Mr Wallace but from the fact that it would make two candidates on the ticket from the city of Cripple Creek The conference finally adjourned to meet again at 7 o'clock this evening At the meeting this evening three of the members of the Peoples party committee still insisted upon Mr Wallace going on the ticket while two of them were in favor of putting some one else on That committee finally withdrew from the conference and afterwards the Democrats and Silver Republicans came to an agreement by which the Silver Republicans withdrew all their candidates except Charles S Sprague candidate for representative from Colorado Springs The ticket now stands H H Seldomridge for senator Democrat of Colorado Springs for representative Col B F Montgomery Democrat of Cripple Creek G M Hollenbeck Democrat of Victor and Charles S Sprague Silver Republican of Colorado Springs

Accident in Doctor Mine

James Ford working on the Doctor mine slipped and fell in the stope at 4 o'clock this afternoon and rolled down the side of the stope a distance of about 100 feet Dr Cunningham who attended him says Ford is not badly injured He is bruised quite badly about the head but will be able to go to work again in a short time

The attack which was made by the crowd of hoodlums at Victor yesterday upon Governor Roosevelt and his party has been the subject of general conversation among all classes of people in this city today It is condemned by people of all parties as a most disgraceful affair and entirely unwarranted under any circumstances

J J McFeeley who has been retained by the men arrested in the Elkton mine for stealing ore on the 18th of this month today filed a motion in the district court to quash the indictments on the ground that the value of the ore is not stated in the information and that the person making the affidavit did not have any knowledge of the matter stated in the information

Philip Schuch Jr was on trial in the district court today on the charge of assault with a deadly weapon upon Dr McGuire on the 13th of last July The case was on hearing before Judge Harris S D Crump appearing for the defense and T C Early for the prosecution The case was not finished and will be resumed in the morning

A Complaint Dismissed

The officers of the Home Mining Co M S Beal and A Hall were in police court tonight on the charge of violating a city ordinance preferred by V H Miller He charged that they erected a gallows frame made of wood within the fire limits and also built a ventilator shaft made of wood which Mr Miller considered a menace to his residence In case that either the gallows frame or the ventilator should catch afire Judge Whiting could not see any danger from fire and dismissed the case.

Leontine M Marks was granted a divorce in the district court today on the ground of extreme and repeated cruelty.

Annie Lowry age 24 died at 2 o'clock this afternoon after a short illness at her home 58 Colorado avenue The remains will be sent tomorrow to Beloit Kan

Annie Goodin age 79 died at 3 o'clock this afternoon at the residence of her son John at Cameron The funeral will be held tomorrow at 10 o'clock at Lampman's undertaking rooms The services will be conducted by Rev Sisson

While Deacon Scott the dog catcher was riding down Bennett avenue this evening his horse stumbled throwing him to the ground and then fell upon him Scott sustained three severe bruises one on his left ankle one on his right knee and one on his right shoulder

J C Himebaugh of Goldfield complained to the police last night that while he was at the Republican meeting in Butte hall he lost his pocket book containing $5 in currency and papers to the value of $20 He was not sure whether he lost it out of his pocket or whether it was taken from him

John Sullivan and Maggie McHugh both of this city were united in marriage today by Judge Seeds of the county court

A divorce was granted today to Martin Steller from Mary Steller on the ground of cruelty

GOLDFIELD

Special to the Gazette

Goldfield Sept 27—Professor G F Hill of Omaha Neb has been selected as principal of the Goldfield school to succeed Professor Jenkins who died recently

MESA REPUBLICANS

Nominated L. B Brown for Representative and Frank Collins for County Commissioner

Special to the Gazette

Grand Junction Sept. 27—The Republican county convention was held in this city this afternoon and the following ticket placed in the field. For representative L B Brown and for county commissioner Frank Collins of Rhone

Tonight at the Park opera house Hon Earl M Cranston of Denver made a speech at a Republican rally.

TRINIDAD

Republicans Nominated Strong Judicial and County Tickets and Intend to Win

(Special Correspondence)

Trinidad Sept 24.—The Republican county and judicial conventions held today nominated the following tickets:
District Judge Jesse G Northcutt
District Attorney—Robert R. Ross
State Senator—Daniel L Taylor
Representatives T K Holmes and Rafael Chacon.
Float Representative Las Animas and Kent Counties Frank R Wood
County Commissioners C F. Rhodes and J J Pals
County Coroner W. C Draper
Justices of the Peace William Milliken and Jacob Beard
Constable W J Hardy

Both conventions were very harmonious and enthusiastic All personal differences were laid aside and all elements brought together with the result that the best and ablest men in the party were placed on the ticket. This is regarded as the strongest ticket that could have been put before the people The Republicans have been quietly organizing for several months and are now better prepared for this campaign than they have been for years and believe that the ticket named today will surely win in November

BOULDER

Republicans Preparing for Aggressive Campaign—Fusion Fight On District Judge Nomination.

Special to the Gazette

Boulder Sept. 27—The Republicans of this county are evidently going to do some pushing themselves this fall A store room has been rented and head quarters are to be opened up at once

The district judge squabble waxes warm I see no reason why I should withdraw said A. C Patton the Populist nominee today The fusion committee gave the office of judge to the Populists and I was chosen to represent them and now they want to back down I'm in the race to stay If the Democrats want harmony why don't they withdraw Boughton and give him the district attorneyship This suggestion by Judge Patton was sneered at by the other side Boughton has made a good judge for many years they say and he is the only candidate"

LAS ANIMAS

Telephone Connection Will Soon Be Completed—Cantaloupe Season Has Been Extremely Good

Special to the Gazette

Las Animas Sept 26.—Las Animas is connected at last with the outside world by telephone The field force of the Colorado Telephone company reached here today and set their poles and wires in the town Wires for local use will be strung at once and the central office will be in working order in a few days when long distance connection will be made with Colorado Springs and other principal cities

The cantaloupe season closed today on account of the cold weather and the depreciation of the crop The season has surpassed any previous one, continuing for 50 days and was exceptionally good prices averaging well Forty-four cars were shipped being ten more than were shipped in any previous season

BASEBALL

WOMAN'S CLUBS

State Federation Elected Officers Valuable Discussions Held.

Special to the Gazette

Canon City Sept 27—Dismal weather [...] the session of the [...] tion of the Colorado Federation of Woman's clubs none the less interesting [...] it was dreary outside [...] the meetings [...] being held is cheerful on account of the large amount of co-operation

[...] is attached to the election of officers for the coming term and the report of the nominating committee was awaited with impatience Reports from the biennial meeting of the General Federation of Women's clubs that was held at Milwaukee were taken up first and Mrs A M Welles of Denver gave a very interesting resume of the accomplishments of that body Several delegates followed with impressions of the convention relating to the incidents that impressed them most

Nominations were then taken up and the committee reported the following for officers president Mrs T M Harling Canon City first vice president Mrs Mary C C Bradford Denver second vice president Mrs Irma Corklin Lee Cripple Creek recording secretary Mrs H L Churchill Greeley corresponding secretary Mrs R S Lewis Canon City treasurer Mrs A P Wadsworth Grand Junction auditor Mrs B F Griffith Leadville Mrs Griffith declined to run and Mrs A C McChesney of Trinidad was elected to take her place

After the close of the morning session the delegates enjoyed a lunch served by ladies of Canon City

Some of the most interesting papers of the entire gathering were presented at the afternoon session Mrs John R Hanna a woman prominent in educational circles of the state and who has been in the public eye quite a good deal made the report to the convention [of] the committee on education It brought about a very general discussion in which many of the women took part

[Travel]ing libraries is one of the things that the federation has actively taken up and even with the very small beginning the work has been a success Mrs O G Otis of Louisville Colo made the report for the committee that has the matter in hand Miss Minnie Reynolds of Denver supplemented this report with some additional information about the work

Mrs W H Green of Denver had been assigned on the programme to cover the work of the reciprocity bureau for the year but as she was not present Mrs Conine presented it

Every seat in the auditorium was filled at the evening session to see the installation of officers and listen to the musical programme given by the musical clubs of the federation and the musical departments of the women's clubs Canon City Denver and Pueblo furnished the musicians for the evening and the programme was thoroughly enjoyed

Canon City certainly has done itself great credit in the entertainment of the federation and all the delegates return to their homes with the very best of feeling toward this city— This is the first time that any place in the state has decorated for the organization and it was appreciated

NEWS AND NOTES OF MANITOU

The regular meeting of the Manitou town council will be held next Tuesday evening at the usual hour. No regular meeting has been held for several weeks and considerable business will be transacted.

The members of Manitou Lodge No. 65, A. F. and A. M., held an interesting meeting Wednesday evening at the Masonic hall. The third degree was conferred on one candidate and other routine business was transacted. After the regular business meeting a banquet was held. An elegant lunch was served and the evening was spent in a most enjoyable way.

H. H. Grafton, Dr. F. M. Cooper, E. E. Nichols, Jr., George French, George Andrews, Chas. Meador and H. S. Francisco went to Colorado Springs Wednesday afternoon to attend the Republican county convention which was held at that time. They represented two precincts in Manitou at the convention.

Chairman D. H. Rupp has appointed the following persons to act as a precinct committee: Dr. F. M. Cooper, William Frizzell, Mrs. C. A. Pollen, E. E. Nichols, Jr., Mrs. A. N. Frowine and C. E. Tillotson. This committee will engage in active work during the campaign.

Mr. Hal Ross was in Denver last Thursday and Friday visiting with friends.

Captain Coghlan and wife have returned to Manitou from a several days trip around the Denver and Rio Grande circle in the southern part of the state. They are again at their apartments in the Montcalme Castle.

Mrs. J. B. Wheeler has gone to Canon City to attend the state convention of Federated clubs, which is being held there this week.

Mr. W. H. Moreland of the Manitou Mineral Water company, was in Denver last week attending to business interests.

Mayor Henry R. Penfield left Monday morning for Chicago where he will visit with friends and relatives. He expects to be away until about the 10th of next month.

Mr. C. E. Tillotson and son left last Tuesday morning for the White river country where they will spend a few weeks hunting and fishing. They make this trip almost every year and usually bring back plenty of game.

Rev. and Mrs. F. L. Hayes are rejoicing over the arrival of a fine new baby girl, born last Tuesday. The happy parents are receiving congratulations from their many friends.

Miss Hope Vezie, the well known clerk in the Manitou postoffice has recently returned from Colorado Springs where she spent a two weeks vacation visiting with her sister, Mrs. W. C. Grafton.

Mrs. W. A. Davis has gone to New York and other eastern cities to spend a few weeks visiting with friends and relatives.

Mr. and Mrs. J. E. Caldwell left last week for Nashville, Tennessee, where they will spend a few months with relatives at Mr. Caldwell's former home.

Mr. and Mrs. A. Cree left last Friday for Milwaukee, where they will spend a few weeks visiting with their daughter, Mrs. F. C. Curtis.

Miss Juliet Enders, who has been visiting with Miss Emma Rich in Manitou for several weeks, left last week for her home in Shreveport, Louisiana.

Mrs. C. J. Perkins and son have gone to Cripple Creek to spend the winter months.

THE MAN FROM MEXICO.

Broadhurst Bros.' production of "The Man from Mexico" at the opera house on Monday evening will be hailed with delight by all who witnessed the performance last season. To those of our readers who did not see it, a slight story of the play will not be amiss.

"The Man from Mexico" begins to commence at just the time of adventure when most French farces begin to end. The awful night of excitement, complication and veiled identity at the questionable house of entertainment is all over when the curtain rises on the first act. Benjamin Fitzhew has had his night of it, together with his friend Majors, and Mrs. Fitzhew has had hers while vainly trying to follow them. The chasers and the chased did not meet and now all would be serenely over—only Fitzhew was arrested, sentenced to 30 days on Blackwell's Island with the one privilege of first going home to straighten out his affairs. The action commences with Fitzhew in his own house, under charge of a deputy, doomed to serve 30 days and plausibly account for them to his wife. The end of this complication and the beginning of the others is that he leaves home avowedly bound for the land of Mexico. In bare plot the rest of it is that he goes to jail and endures a solid month of comical misunderstanding, and finally comes home in the costume of a toreador and lies to his wife up to that point where even his eventual confession of part of the truth needs a large corroboration.

George C. Boniface, Jr., will impersonate "The Man," and he will have the assistance of the following well known players to aid him in his fun making: Gus Pixley, F. W. Bernard, M. L. Heckert, Robert Deshon, J. Trew Gray, Arthur Villars, D. H. Landon, D. W. Siegrist, Helen Baird, Adeline Mann, Agnes Burke and Mildred Keith.

VANITY FAIR.

Something distinctly new is offered as an attraction in farce comedy and vaudeville, which will be one of the principal attractions of the opening season here. The title is "Vanity Fair," and the supporting company, an excellent one, it is said, will present a mixture of unique musical effects, farce skits, acrobatism and high class vocalism, making a most delightful performance. "Vanity Fair" will be the attraction at the opera house on next Tuesday evening. To hit the foibles and fads of the day, to touch with pungent satire and laughable joke, as well as to brighten with music and song, has been the purpose of the author of "Vanity Fair." For this very happy purpose, unusual attention has been given to the artistic material comprising the company, which numbers 18 people, whose various special acts have been warmly commended everywhere they have appeared this season.

FIRST FOOTBALL GAME TOMORROW

College Will Line Up Against East Denver Eleven.

COLLEGE NOT CONFIDENT

Scholastics Will Put Up a Hard Game and With College Team in Bad Condition Surprises May Result—Admission 35 Cents.

Aspirants for gridiron honors at Colorado college will line up for their first test of football prowess this season against the East Denver High school tomorrow afternoon. In view of the fact that the college team is still in an unsettled condition and that no team work has been developed, it is feared by followers of the game that the wearers of the black and gold may more than have their hands full with the fast High school eleven.

Football at the college is in a chaotic state. With Pardee, guard on the '99 team, and Roberts, sub-guard on the same eleven, out of the game with injured knees, and both ends, quarter back and half back to be filled with green men, the outlook is anything but encouraging.

Quarter back and half back are causing the most trouble. No man has been found yet who can run the team in a snappy manner. Mead and McCintock are trying for the quarter position, but neither has shown up as well as was expected. Mead is the better of the two. For the vacant half back there are Pardee, Gleason, Hoyne and Meleced; all light and inexperienced men.

Two new men, Robinson and Wade, are trying for half back, but they have not been out long enough yet for the coach to get a line on them. Wade was captain and full back of the local high school team last year. Robinson has had some experience and is a muscular young fellow.

In the line there are several good men. Wheeler, a heavy, young freshman, is showing football qualities at center, and Frost, center on last year's team, is working at left guard. Capt. Griffith, the old reliable, is at his place at right tackle, and Lamson, who played guard last year, is doing well at the other tackle. Pardee and Roberts will fight it out for guard, if their injured knees recover.

Gopher, Rice, Bates, Houke and Moore are trying for the ends. Houke was sub-end on last year's team and Bates has a good record as end on the local High school eleven. However, Bates has an injury which will keep him out of the game. Rice and Houke have been doing the best work.

Packard and Jonson are not yet putting up their usual game at full back and right half back respectively. Packard lacks the spirit and dash he had last year and may be hard pushed for his position by some of the new-comers. Jonson and Wheeler are doing well at place kicking. Wheeler and Packard are the best punters.

Considering the short time the men have been at work and the irregular practice the Tigers will do remarkably well to keep the Denver High school boys from crossing their goal line. The college men will play simple, straight football Saturday.

Admission 35c. Tickets on sale at Strang's.

WITH THE COLLEGES OF THE FAR EAST

Cornell's football team lined up for the first scrimmage Saturday. The two teams were thrown together at random simply to give the backs a chance to see what they could do with straight plays. Capt. Starbuck said after the practice that the play was exceptionally snappy for the first line-up. The scrimmage was continued for 15 minutes, and none of the participants showed any signs of weariness after it was over. Coach Haughton thinks the past week of light practice has rounded the men into very good condition. Several new men came out to try for the line, and Capt. Starbuck wore a broad grin when the practice was over. Among the more promising are: Hunt, '04, who weighs 200 and comes from the St. Paul school at Garden City; Kinney, '04, weight 185 pounds, who comes from Lawrence school, and Vorhis, '04, weight 189 pounds, from the Cleveland high school. "Bobby" Young, last year's quarter-back, was on hand and will remain to coach the candidates for his old position for a week.

A half-holiday Saturday enabled the football management at Princeton, to arrange for practice at 3 p. m. The men are in better condition to go through a heavy practice at this time than at the usual hour immediately after luncheon. The candidates seemed to show the advantage of this hour by the snappy play they put up this afternoon. The old straw filled dummy was called into use for the first time this season. Capt. Pell carefully watched every man as he made the dive at the stubbed legs. Mattis and Hodgeman are both improving wonderfully in kicking quickly. The candidate were given the first chance to show their real worth in a position, a rather loosely formed line-up having been tried. "Doc" Hillebrand was on the field in football togs, and carefully watched and corrected the linemen in the formations. Only the simplest plays were tried. Sam Craig, guard on last year's team, will not be back this year, having gone into the ministry. Young, the seminary student from Cornell, was out and put up a lively practice.

Capt Daly and Coach Dibblee have begun to thin out the Harvard squad, and the varsity team is beginning to take shape. The first game of the season will be played Sept. 29 and the managers want to have the permanent line-up well under way by that time. The squad of heavier linemen has been joined by Riggs of the 1903 freshmen, a 194-pound man, who stands over 6 feet 4 inches high; Spratt of last year's scrub, and Henderson, 1901, who rowed on the four-oar last spring. Spratt and Henderson are out for tackles and weigh 181 and 173 pounds respectively. Others in this squad are Lee, Blagden, McGrew, Lewis, Whitewell, De Long, Carroll, Jim Lawrence, Barnard, Grew and Fox, a new man, who played with 1903 last season. Next to Lee, Carroll is the sturdiest man for guard, while besides Jim Lawrence for tackle, Barnard and Lewis would be first choice if a line-up was necessary today.

Columbia University's football squad went to the Yale field Saturday to see Capt. Gordon Brown's men work. Rogers, the big Columbia guard, has sprained his ankle so badly that he will be out of the game for a month and may be able to play no more this season. H. B. Weekes has wrenched his knee, and Austin, tackle, got a badly cut forehead. Last week practically ended the training of the Columbia squad at New Haven.

At the Yale practice up to the present Frank Butterworth's coaching has been a feature. He handled the backs especially.

The football outlook at Pennsylvania depends to some extent upon the outcome of the re-examinations, which began Monday and continued during the week. But Coach Woodruff and Capt. Hare are well satisfied with the outlook thus far. The number of candidates is as great as was expected, and the quality seems to be all right. In size and weight the candidates excel, and if everything goes well the rush line should be as heavy as that of last year, which averaged close to 185 pounds. The object of the work thus far has been to develop wind and speed. Very little attention has been given to formation. Coach Woodruff has spent the time in getting acquainted with each individual and in giving each candidate individual instructions which were best suited to develop his natural abilities.

THE BOHEMIAN GIRL.

The Bohemian Girl was presented at the Opera house last night by the Arnold Opera company. The house was fairly well filled, but the inclemency of the night kept many at home who would otherwise have been present.

The presentation of the popular opera was on the whole fairly good. The chorus work especially was strong and one or two of the leading parts were above the average. John J. Raffael as Count Arnheim was the only member of the troupe with any considerable reputation and his fine voice was heard to good advantage. Miro Delamotta, as Thaddeus, exhibited attractive tenor ability and his enunciation especially was worthy of favorable notice. Fannie Myers as the Queen and Ada Palmer Walker as Arline were fair but not equal to the leading male members of the company.

D. BERNARD SEEKS A HORSE AND BUGGY

Mr. Douglas Bernard, the well known proprietor of the Bernard livery barn on East Cucharas street, is mourning the loss of a horse and a fine Babcock buggy which were rented out last Wednesday afternoon. The police have been notified of the loss and every effort is being made to catch the thief.

On Wednesday afternoon about 3 o'clock a man who gave his name as Ed Lawrence called at Mr. Bernard's barn on Cucharas street and stated that he desired to hire a horse and buggy for a few hours. His request was granted and he was provided with one of the best horses in the barn and a fine buggy. He paid the amount asked by the man in charge of the barn and drove off.

About 6 o'clock he was seen with the horse and buggy on the streets of Manitou, but since that time he has not been heard of. After giving the stranger ample time in which to return to the barn Mr. Bernard became suspicious and began to look up the whereabouts of his horse and buggy. He searched in this city, Colorado City and Manitou, but the horse and buggy were not found. He sent telegrams to several places in the country but received no favorable responses. Chief Henry of the police department was notified and he is making special efforts to apprehend the thief.

Steam Pipe Burst and Damaged Goods

The bursting of a steam pipe in Carpenter & Draper's grocery store on North Tejon street created a little excitement at about 4:30 yesterday afternoon.

The store is heated by steam radiators and one of them is situated about midway between the side counters and near the front door. Yesterday afternoon at the noon hour mentioned one of the clerks turned on the steam. The force was evidently too much for the pipe and the result was that the pipe burst near the point where the steam was turned on and a stream of steam and hot water was shot high into the room. The store was filled with the vapor and water before the steam was finally turned off downstairs. Much damage was done to the goods by the water, which was sprayed about in lively style, and which flooded the floor completely. Fortunately no injury was suffered by any of the employes or others who were in the store.

Mr. Draper and Mr. Carpenter are both out of the city and it was impossible yesterday to get an estimate on the extent of the damage. The water must have done heavy damage to the goods, however. The store presented the appearance of a building on fire after water had been turned on. Steam poured out of the door for some time and the building was not cleared of it for over an hour. The noise of the escaping steam and the natural confusion in the store attracted considerable attention on the street and a crowd gathered around the door.

Chairman Kohn on the Riot at Victor

The Democratic press of the state has taken a various attitude in regard to the riot and brutal assault made on Governor Roosevelt Wednesday night at Victor. They go all the way from saying that the affair was not so bad after all, to blaming it on the Rough Riders.

On this proposition the following letter from Chairman Kohn of the Teller Silver Republican central committee of Teller county is interesting:

Cripple Creek, Sept. 26, 1900.

To the Chairman of the McKinley and Roosevelt Meeting, Cripple Creek:

Sir—Since the arrival of Governor Roosevelt, Senator Lodge and Senator Wolcott at 6 o'clock this evening, I have heard of certain acts of indignity and possibly of violence against our distinguished visitors at Victor. I immediately called on Governor Roosevelt and assured him, as chairman of the Teller Silver Republican Central committee of this county, that we condemn and detest such treatment of him and his party. I know that he is man enough to simply put it down to a few or a lot of hoodlums, in no way representative of the people or of any party in this state.

And in order that this statement of our regrets may have wider publicity than my personal explanation to Governor Roosevelt, I would ask you kindly to have and to tender the regrets of our party, and of all the good people of this district to Governor Roosevelt, Senator Lodge and Senator Wolcott for the un-American happenings at Victor.

I am safe in saying, knowing the people of Victor as I do, that, regardless of party, they will not long permit such a stain to rest upon the good reputation of that city, and certainly no political party should be held responsible.

Very truly yours,
George H. Kohn.
Chairman Teller Silver Republican Central Committee of Teller County.

REPUBLICAN WOMEN TO MEET AT ALAMO

The Republican women of the city will have a treat tomorrow afternoon at the Alamo hotel. The meeting will be held in the handsome new ball room of the house and will begin at 2 o'clock.

At this meeting the women of Colorado Springs will have an opportunity of meeting Mrs. Ione T. Hanna, nominee for the office of state superintendent of instruction; Mrs. S. M. Caspar, president of the Woman's Republican League of Colorado, and Mrs. G. L. Scott, former deputy superintendent of instruction during the term of Mrs. A. J. Peavey as superintendent.

All women are cordially urged to make an especial effort to be present as these ladies are most able and convincing speakers and the opportunities for hearing them in this city are very rare.

THE INSULTS TO ROOSEVELT.

THE treatment accorded Governor Roosevelt at Victor will do the state infinite harm throughout the balance of the country. In matters of this kind new states and new communities are apt to be judged as a whole by the acts of a few political hoodlums. The decent people of Victor resent the occurrence of Wednesday just as emphatically as any people possibly can and it is unfortunate that the good name of the city has to suffer from the riotous acts of a few embryo anarchists.

While the mob at Victor was a disgrace to the state, *it is questionable whether its riotous acts were half as* injurious to Colorado's fair name abroad as the wanton and open insult to Governor Roosevelt in Denver by the "open letter" addressed to him by the governor of Colorado The masses of the people have nothing to do with and are not responsible for the creation of mobs, but they do make governors Officials imbued with state pride and a proper sense of the proprieties of their station are ever mindful of the fact that they are serving in a representative capacity and that they are presumed to represent all of the people and not any faction clique or party Particularly is this true in the amenities and courtesies which are expected to emanate from the governor of a great state as tributes of the civilization, enlightenment, culture and good will of a polite and progressive people.

We wonder what the people of Colorado would think of the good breeding of the governor of New York were he to address an "open letter" to our governor, at some period of the pending campaign when he might be a visitor to that commonwealth, asking our governor why he completely ignored the silver question on the two important occasions of presiding over the Democratic national convention and in his notification speech at Indianapolis?

While the question no doubt would land our brilliant governor in the inextricable meshes of political insincerity and hypocrisy still it would be a most rude uncouth and discourteous act on the part of the governor of New York, and the people of that state would sound their rebuke in no uncertain tones.

Mob violence is always born of frenzy This "open letter" of our governor appears to have had the same origin.

Both have been injurious to the state and both should be rebuked by the people of the state

HON. FRANK C. GOUDY.

THE progress of the campaign demonstrates every day that the Republicans made no mistake when they nominated Hon Franck C Goudy for governor Wherever he goes he is enthusiastically received and in every speech he delivers he carries conviction to the hearts of his hearers that he will be governor of all of the people, if elected, and that he will carry out the pledges made by him to the very letter of their direct and implied meaning.

Mr Goudy is not only a lawyer of exceptional ability, but he is a business man of wide experience and systematic methods There will be no trouble with the revenues of the state when he is governor, and no 'open letters' to visiting governors will be issued during his term of service

It is gratifying to note the many splendid things said about Mr Goudy by the opposition press in the southern and western parts of the state where Mr. Goudy lived for many years and where he really began his career in this state.

Mr Goudy will begin a thorough canvass of the state next week and no person who wishes to hear the issues of the campaign ably discussed can afford to miss his meetings.

TELLER COUNTY REPUBLICANS.

TWO years ago any person who predicted that the Cripple Creek district would go Republican in 1900 would have been called a hopeless lunatic or an idiot But nevertheless the indications now are that just that result will be achieved The revolution in sentiment has been brought about by a variety of causes, not the least of which is the thorough Americanism of the people of that wonderful camp. They feel, as do all loyal citizens, that the paramount issue of the present campaign is one which will bring dishonor to the nation, disgrace to the flag and contempt for our government should the Democrats triumph.

The people of the Cripple Creek district are patriots first and partisans afterward. They are expansionists just as all progressive Americans have always been expansionists ever since our country started upon its grand career with only thirteen feeble colonies.

There are also many local reasons for the change of sentiment in that district. The fusion forces two years ago made many promises for the benefit of a large number of the citizens of Teller county. Not one of those promises has been fulfilled Then, the Republican organization in Teller county is superb. While Democrats, Populists and Silver Republicans are quarreling and disintegrating the Republican forces have lined up in a compact body and under able and skillful leadership recruits by the hundreds are joining them every week

With the present splendid efforts continued until election day there will be no doubt about a complete Republican victory in Teller county this fall.

AN INJUSTICE TO COUNTY ATTORNEY HUBBARD.

THROUGH an unfortunate error in the local columns of the Gazette yesterday morning a grave injustice was done to County Attorney R. L. Hubbard and his estimable family A complaint was filed Wednesday with Justice Ruby and a warrant was issued for the arrest of L. D. Hubbard, an attorney of this city, for non-support of his family,

The matter was brought to the attention of a Gazette reporter very late in the day and he was informed that County Attorney Hubbard was the man referred to in the complaint. The information came from a source which had been proven reliable on repeated occasions, and the reporter accepted the statement of the trusted informant as absolutely true and wrote the article as applying to Attorney R L Hubbard instead of Attorney L. D Hubbard, the real party in interest

The Gazette regrets exceedingly the use of County Attorney R L Hubbard's name in this connection, as he is a most devoted husband and father, besides being an estimable gentleman and a good citizen, and we take pleasure in correcting the error in a more public manner than the original article appeared

A large part of the credit for the very successful reception to Governor Roosevelt in this city properly belongs to Mr F E. Brooks, president of the Republican club, who did a great deal of hard work with most excellent judgment. Mr R L Chambers of the Republican county central committee also deserves special mention for his successful efforts in this connection

That was a hot shot from Colonel Guild about the resolution in favor of retaining the Philippines passed by the Democratic state convention of Colorado in 1898.

A WORTHY INSTITUTION SEEKING AID.

THE Glockner Sanitarium, one of Colorado Springs' most beneficent institutions, is to hold a bazaar about the middle of November, to raise money to pay a debt of $11,000, $7,000 of which was on the property when it came into the control of the Sisters of Charity, and to raise a fund for enlarging the accommodations.

The Glockner has now for eight years been quietly doing its kindly and beneficent work of caring for the invalid and the sick. The Sisters of Charity who have charge of this work are a worthy band of devoted women, who are conducting the institution on non-sectarian lines, and while affiliated with the Catholic church, in no way make the question of religion a condition of admission or of the most devoted care. The question of religious affiliation is never asked or thought of. A large percentage of its patients and patrons are of other church associations, or of none.

The Glockner is sometimes spoken of as not an institution of charity. It is true that a suitable and very reasonable charge for board and care is made, but those who are not able to pay are not turned away if there is room unoccupied, often unheralded and unmentioned charity is given, and this would be more widely given if it were possible to do so. The institution is not endowed; it is not supported by the church, and the Sisters who devote their lives to the work do it without compensation. Those who have received the kindly sympathetic care here given, should so far as means permit, contribute to its support that others may enjoy the same care Those who are charitably disposed among Colorado Springs' rich and prosperous citizens should recognize the importance of this institution to the city. Thus far all the money value of the home has gone to the trades people of the city.

Take the home from the community and all would *be losers* Unless some more adequate aid is given than has thus far been the case it will not be possible to continue the good work along the lines heretofore followed, if at all Let this appeal reach the hearts and the pockets of every citizen of Colorado Springs, and of the charitably minded everywhere, that a good and noble work be not *only continued, but enlarged and made more comprehen*sive and a greater power given to provide refuge for those in need.

Contributions of all kinds of salable articles for the bazaar and of those things which may be useful in the conduct of the home and especially of money will be gratefully and thankfully received and acknowledged by the Sister Superior.

PRESIDENT M'KINLEY'S CHINA POLICY.

FROM so good a Bryan Democrat paper as the New York World we clip the following comment on the American policy in China

"Mr McKinley's new Chinese policy, as distinctly formulated in his replies to Germany, Russia and China ranks high among the creditable acts of his administration. It is unequivocal firm sensible elevated, in every way American

To the Kaiser he says No I will not join in your scheme of making impossible and unjust demands upon China and so increasing the confusion there and aiding you to crown your vandal course by the seizure of a large part of the Chinese empire

"To the Czar he says You are right and I was wrong, I shall follow your example, shall abandon my plan of a China under foreign domination and bayonet exploitation, *and shall follow your course of peace, justice and civilization*

"To China he says. Your people have had great provocation from the vandal powers in the past. You ought not to be hampered in the work of restoring order and resuming your upward way. I accept your negotiators and will send American negotiators to talk matters over quietly with them.

"But most important of all, these three notes say to the American people. You are weary of unctuous phrases You are opposed to your president wandering about the Orient 'outside the Constitution,' getting satrapies for politicians, franchises for syndicates and foreign graves for American soldiers. As the election is at hand you shall have your way Your president resumes his humbler role of a law-abiding constitutional chief executive and renews his allegiance to American traditions and ideals of a plain, peace-loving, peace-promoting democracy that is not a world-bully but a world-power"

Where the World makes a mistake is in the last paragraph It refuses to see that President McKinley's policy in the Philippines and his policy in China are absolutely consistent, and that both are dictated by the highest spirit of Americanism and of regard for American interest

Two years ago such papers as the Denver News and the New York Journal were outspoken in favor of retaining the Philippines and the News said it would be a crime to give them up The Colorado state Democratic convention passed a resolution *in favor of keeping them*, and Senator Teller in a speech before the Silver Republican convention advocated the same thing

When the peace treaty was before the senate for confirmation Senator Teller said in an interview 'It is impossible for our government now to withdraw. If it *has not enough troops to subdue the insurgents, we must send more*."

If President McKinley had done anything different in the Philippines from what he has done he would have been condemned by nine-tenths of the American people, including the great majority of those who are now criticizing him

It is a strong testimonial to his exceptional ability that even his political opponents are now commending the wisdom of his course in China, but that is no reason why they should be permitted to detract from his great services to his country elsewhere

SENATOR BEVERIDGE'S SPEECH.

THE Gazette was the only paper in Colorado to give any considerable space to the great speech which Senator Beveridge of Indiana delivered in Chicago last Wednesday evening It was well worth reading and we hope all Gazette readers have done so Senator Beveridge, like other prominent Americans who are strong supporters of President McKinley's policy in the Philippines, is personally acquainted with the islands and knows the conditions there from actual observation His speech treats the subject in a new and strong light, and it is a valuable contribution to campaign literature

Senator Beveridge is also scheduled to speak tonight at the state Republican rally at Columbus, Neb, and his speech upon the trusts will arouse as much interest as his speech upon imperialism has done.

Since the editorial in yesterday's Gazette was written there has come to our notice an interview with Senator Hanna in which he says that the exact words of his speech at Chicago were. 'There are no trusts within the meaning of the law." This makes it even clearer than it was otherwise that he was referring to trusts in the strict sense and not in the meaning which is now commonly attached to the word

Among the minor speakers in the city Wednesday were Governor-to-be Goudy, and Congressman-to-be Hogg. Both these gentlemen made a very pleasing appearance and impressed their hearers favorably. We hope for the early fulfillment of their pledges of more extended speeches at some future time

Mr. Alex Strachan made a very creditable showing in the convention as candidate for the nomination as county commissioner He has a host of friends throughout the county, and will be heard from again in county affairs

How hard the Bryanites are trying to believe that there are no brains behind Teddy's teeth.

FROM THE PRESS OF THE NATION

A Local Issue.

Lincoln (Neb) State Journal

And the octopus, too, seems to be something of a local issue In West Virginia Col Bryan was taken aback when all of his references to the Standard Oil company seemed to fall on deaf ears The people cheered wildly when he smashed the Republican party on the nose for various alleged offenses, but when it came to the oil octopus, there were no cheers. The explanation is found in the fact that the Standard Oil company buys oil directly from the owners of the wells, and sells it to the consumer, at the smallest margin ever known in the oil business. People who have been squeezed out of the oil business are naturally bitter in their opposition to the trust, and so are the consumers who know nothing about the real value of the article they are using and the price the people had to pay before Rockefeller organized the industry to freeze out the middle man

But in West Virginia the oil wells abound, and the people know something about the business. Every time oil goes up they get more for the product of the wells They know that their portion of the profits of the business is larger because of the lack of a long chain of middle men, each one taking toll from the oil and in the end cutting off money from the consumer as well as the producer. That is the reason there was a deadly stillness in West Virginia when Col. Bryan told of the Standard Oil company dividends and then lifted himself up on his toes and roared 'Have you shared in these dividends?' The people had.

Out in Kansas they would have filled the air with "noes," for there they do not remember the old price of oil and do not yet understand that it is possible for a business to yield big dividends at both ends by cutting off the useless expense in the middle.

Another slip made by the candidate in West Virginia was to inquire about wages of the men working in the oil fields and their fluctuation. This also met with respectful silence The fact is that the company has always paid *a regular scale of $2 a day for ordinary* labor, $5 a day for a man and team and $6 for skilled well borers This never varies and the men are satisfied The whole of West Virginia, in fact is rather barren field for the growing of a crop of calamity votes this year It is evident that Col Bryan wasted his time in making his characteristic speeches to those people.

The Imperialistic Act of 1804.

(New York Sun.)

We respectfully call the attention of Mr. Bryan, both as a statesman and as a lawyer, to a remarkable classification contained in a statute of the United States passed by the eight congress and approved on March 27, 1804

The act in question specifically divided all territory under the flag and sovereignty of the United States into three classes, as follows:

1 States of the Union,
2 Territories of the United States,
3 Countries subject to the jurisdiction of the United States

The congress which enacted this imperialistic classification was providing at the time for the authentication of local acts or public records introduced as evidence in the Federal courts and in all other courts within the United States The second section of the act was as follows:

"All the provisions of this act, and the act to which it is a supplement, shall apply as well to the public acts records, office books judicial proceedings courts and offices of the respective territories of the United States and countries subject to the jurisdiction of the United States, as to the public acts records, office books, judicial proceedings, courts and offices of the several states"

Here is a distinct recognition of "imperialism" a designation of successive grades of United States territory, from the subject country up to the state in *full membership; a framework for a* system of outlying possessions, colonies, provinces or whatever you please

It is still the law of the land The classification was preserved in the revision of the statutes in 1873 by the imperialists of the Forty-third congress Mr Bryan will find on page 171 of his copy of the Revised Statutes:

"Section 905.—The acts of the legislature of any state or territory, or of any country subject to the jurisdiction of the United States shall be authenticated by having the seals of such state territory or country affixed thereto. The records and judicial proceedings of the courts of any state or territory, or of any such country, shall be proved or admitted in any other court within the United States, by the attestation of the clerk," etc.

And the next section:

"Section 906—All records and exemplifications of books, which may be kept in any public office of any state or territory or of any country subject to the jurisdiction of the United States not appertaining to a court, shall be proved or admitted in any court or office in any other state or territory, or in any such country, by the attestation of the keeper of said records or books * * * or of the governor, or secretary of state, the chancellor or keeper of the great seal of the state, or territory, or country,' etc

Once more let us catalogue the three classes of United States territory recognized by this statute.

1 A State;
2 A Territory
3 A country subject to the jurisdiction of the United States.

But who was the *imperialistic* president, so reckless of republican institutions or so blind to the dangers lurking in a graded system of allegiance permitting colonial enterprises and the holding of distant possessions that are neither states nor organized territories, that he signed the original act establishing these distinctions?

It may interest Mr. Bryan to learn that his name was Thomas Jefferson.

Senator Depew Finds Something New.

The felicitous style in which Senator Depew expresses himself, and the fact that he always has something of interest to say—something worth remembering, too—was again emphasized by his first public utterance on his recent return from a tour abroad He said that one of the phenomena of the close of the nineteenth and the opening of the twentieth century is the position and rank our country has taken within the past two years Senator Depew visits Europe annually, and comes in personal contact with many of its representative business and public men He declares that before 1898 no ruler or minister in Europe was interested in American opinion or action, but that now every cabinet reckons the attitude of the United States in formulating its plans The taking of half of the British war loan in New York at nearly one per cent less than London offered amazed Lombard street and put thinking-caps on financiers everywhere. Senator Depew spoke of the fact that every European nation finds its production enormously in excess of its consumption of manufactured articles, and that the growing competition in trade in which the New World is engaging would be checked by the governments of the continent if they saw any way of doing it Furthermore, the powers are so nicely balanced that our position on Eastern questions is of vital importance and the one query abroad is 'What will the United States do?" Every American citizen will share in the gratification which Senator Depew expresses over the decided advancement of our government in the eyes of the greatest foreign nations.—(Leslie's Weekly.

In this age of improvement there is one thing that is hard to improve. It is the foundation of the great annual sales of

FAIRLEY BROS.

House Furnishing Business

FOUR REASONS

1. No furniture for sale that is not reliable.
2. To get the right furniture here and show it plentifully.
3. To utilize our entire resources to sell the furniture cheaply.
4. To tell the truth about the furniture.

Four important items to be considered by purchasers in making their purchases:

Our assortment will be found always complete in lines demanded by consumers.

Our styles will always be found newest and most desirable.

Our qualities will always be found thoroughly reliable.

Our prices will be absolutely as low, if not lower, than quoted elsewhere.

FIRST NATIONAL BANK BLOCK.

BIG PARADE OF SHOW HORSES

Entries for the Exhibition at Roswell Will Parade the Streets this Morning if Weather Permits.

President George Bernard of the Colorado Springs Horse Show association stated yesterday afternoon that if the weather proved favorable today the first part of the horse show would be held this afternoon at Roswell park. The show has already been postponed one day but the officers of the association believe that the grounds at the park will be in shape today so that no further delay will be found necessary. It is also the determination of those in charge of the arrangements to hold the show during two days and the programmes are being arranged accordingly. A large number of new entries were made yesterday and the success of the show is assured. A great amount of interest is being taken by prominent Denver horsemen and a large number of Denver horses have been entered.

A special meeting of the horsemen who have horses entered for the show was held yesterday afternoon at the office of Secretary Coffey and it was then decided by a unanimous vote to hold a grand street parade this morning for the purpose of showing the number of fine horses which are entered for the show at the park this afternoon. Definite arrangements were then made and the owners of all horses entered were requested to take part in the parade. The proposal was made by some of the exhibitors and heartily approved by the officers of the local association.

All who have horses entered for the show will meet this morning at 9:30 at the Colorado college campus with their turnouts and the parade will be formed at that place. It is expected that about 100 horses, in pairs, singles, four in hands and spike teams will be entered in the parade. The procession will start at the College campus and from there it will come down to the business part of the city and parade on the principal streets. All those who have horses entered for the show are taking great interest in the proposed parade and it will doubtless be the best of its kind ever witnessed in the city. The variety of turnouts will be especially noticeable.

A carload of the finest horses in Denver came down yesterday and will be entered in the local show. They include some of the most famous horses in the west and many of them are well known to the people of Colorado Springs. Upon the arrival of the horses here they were taken to Roswell park where they will be kept during the show.

The owners of the horses came with them and will remain in the city during the show and assist the officers of the local association in making the show the best ever given here. Among those who are well known in Colorado Springs are Fred Roberts, president of the Gentlemen's Driving and Riding club of Denver; Charles Roberts, secretary of the Overland Park association; R. R. Wright, who will probably act as one of the judges of the show; M. B. Porter, Dr. Russ, J. W. Springer, Frank L. Smith, W. B. Lloyd, George H. Lill, he who acted as official photographer at the Denver horse show last year and will act in the same capacity at the local show. Mr. J. D. Ramsford, a prominent horseman of Diamond W..., also arrived in the city yesterday with several fine horses which he will exhibit at the show.

Among the horses brought down from Denver yesterday are Trilby P., record 2:17½; Bill Nye, record 2:14; Molly B., record 2:20; Belvidere Jr., formerly of Colorado Springs, record 2:17½; a well known four in hand, Mascot and Mirx, and Troubadore and Troubadine; Admiral, the well known saddler; Rex Denmark; High J.

The following is the programme for this afternoon:

Class 20—Saddle pony.
Class 2—Tandems.
Class 4—English saddle horse.
Class 22—The handsomest horse.
Class 6—Appointed pair.
Class 1—Champion gaited saddle horse.
Class 9—Pair high steppers.
Class 12—Family turnout.
Class 16—Runabout class.
Class 15—Lady's single turnout.
Class 10—Hunting tandem.
Class 19—High school horses.
Class 2—High steppers (single).
Class 7—Jumping class.

Not County Attorney Sued for Non-Support

The statement that appeared in yesterday's Gazette to the effect that County Attorney R. L. Hubbard had been sued for non support of his family was a most grave error and was due to the acceptance as reliable of information which later proved to have been incorrect. The error resulted from the fact that there are two attorneys in the city named Hubbard. The report of the arrest should have referred to Attorney L. D. Hubbard instead of to County Attorney R. L. Hubbard.

The information on which the article was based came to the Gazette reporter at a late hour. Its source had been proven reliable in innumerable former instances and to this fact was due the publication of the article on the information that was received.

The Gazette is glad to make all possible correction of the reference to County Attorney R. L. Hubbard.

The Geology Work In Colorado College

The college geology class already numbers 21 with more perhaps to come. Its first excursion was made last Saturday to Lake Moraine and was devoted to the study of a former Pike's Peak glacier and to the structural geology of granite.

A number of new books on geology and mining have been added to the geological alcove of Coburn library.

Within a few weeks Prof Cragin will have added the finishing touches to the equipment of the new teaching cabinet and laboratory of mineralogy and during the winter months will push the work of providing for the department of geology a petrotome of the latest design for the slicing and polishing of specimens of rocks, minerals and fossils. He will also devote considerable time to planning the equipment of the rooms which are to be devoted to instruction in the several branches of geology in the new Science building.

The late well known mining engineer Mr. W. E. Newberry was one of the friends of Colorado college and its department of geology, and the promise of geological and mining books from his library has recently been made the department by Mrs. Newberry as a memorial of his interest in geological education and a foundation for a departmental library of geology.

Many gifts of specimens were secured by Prof Cragin for the Geological museum during the last college year and suitable acknowledgments of these will be made later in a list with the names of the donors.

ANOTHER BEREAVEMENT FOR OFFICER BENNETT

C. H. Bennett, the son of Police Officer D. H. Bennett, died at his home 516 West Yampa street, yesterday evening at 6 o'clock after an illness which has lasted a number of years.

The young man was 24 years of age. About 12 years ago he was thrown from a horse and sustained injuries to his spine which made him an invalid from that time. Officer Bennett recently received news that several of his relatives had been lost in the Galveston flood and he receives the deep sympathy of his fellow members of the police force and a large number of friends in the city in this further bereavement.

The funeral will take place tomorrow morning.

BUTTONHOLE INTERVIEWS

In a speech to the ... of Colorado Mr ... of ... said ... :

"I am glad Governor Roosevelt ... to ... He will ... the Republican cause in the state ... he ... with much greater success ... at Victor Wednesday evening ... though a most disgraceful affair will ... him hundreds of votes. He will go back to the east and tell how people ... in the ... districts where the silver craze is prevalent. I was quite ... and please ... remarks made by Mr. Bryan with reference to the report ... of ... in Victor. He knows ... he ... and he is bold enough to remind ... his own followers for taking part in any such demonstration.

"It would not be greatly surprised if Bryan was sent to Colorado to make speeches. I am ... that this state will go Republican and the Democrats are ... to realize the ... which ... been brought about. I met a Democrat the other day from Cripple Creek who was ... to bet that Teller county would go Republican and he was looking for a chance to make some money."

The people seem to have an idea that there is no further need ... for the Galveston sufferers," said Agent ... of the Wells Fargo & Co. express yesterday. "I ... instruction from my company to transport all money ... offered ... consigned to the relief committee free of charge and the orders have not been revoked. People who come from there ... tell that the need ... today are ... as great for a good many weeks ... and that too much cannot be done for the people there.

"The idea should not be allowed to gain a foothold however that Galveston is the only place where suffering exists. In view of what is now being done for Galveston, great as the distress in that city is known to be, I am afraid there are places in the vicinity of the storm center that are terribly devastated and are not receiving their proper measure of relief in money and supplies. As a matter of fact I have heard of several instances where the suffering in other towns is something awful to think of.

"Colorado Springs people can send anything they want to to Texas by our company and we want them to learn it in mind."

Mr Rohrmoser of Costa Rica is spending a couple of days at the Alta Vista. He has been touring the country with his two nieces and stopped off here yesterday for the purpose of seeing what he could in a limited time. The party took in the Manitou trip by carriage yesterday and will probably take in the canons and one or two other points today. They leave for New Orleans tonight and will set sail from that point for Costa Rica.

Mr Rohrmoser is a coffee grower and owns extensive coffee groves. He said the outlook for a good crop this year was splendid. Most of the Costa Rica coffee is sent to London according to Mr Rohrmoser as he says the Costa Ricans can get much better prices there than they can in this country. London he says has a great demand for their coffee and it is prized highly. Only the poorer grades of coffee are sent to the United States from Costa Rica.

Mr Rohrmoser said that his country was enjoying good times at present and the people are looking for several good years to come. The discovery of gold there has made times better and has spurred on activity in all industries.

PERSONAL MENTION.

William Ainsworth of Denver was in the city yesterday.

A. B. Anderson of Pawnee City, Neb., is at the Alamo.

Hugh W. Fullerton, wife and child of New York are registered at the Alta Vista.

W. T. Duncan and wife and Mrs. W. B. Ronaldson of Denver are guests at the Alta Vista.

A marriage license was granted yesterday to Stean B. Mansfield and Miss Ada M. White, both of this city.

Dean R. Low and O. P. Updegraff of Topeka are among the horse show visitors stopping at the Alta Vista.

Miss J. H. Williams and Miss Edith Williams of Detroit, are visitors to the city who are stopping at the Alta Vista.

W. H. Estabrook, the well known Denver merchant, was a visitor in the city yesterday and stopped at the Alamo.

J. T. Tucker, the well known restaurant man, returned yesterday from a protracted visit to Topeka and other Kansas points.

Ada P. Walker, Fannie Myers, Mr. and Mrs. D. Young, John J. Raffael, George H. Hubert, Jules Chiraetti and Ida R. Bruegel of the Arnold Opera company were registered at the Alamo yesterday.

Mr. F. H. Pettingell and family of this city arrived from Europe on the Oceanic yesterday. Mr. Pettingell left Colorado Springs on the 8th of May last and during his trip abroad visited England and the principal cities and watering places of the continent. The pleasure of the journey was somewhat marred by the illness of Mr. Pettingell who was detained some time at Franzensbad, Bohemia, by diphtheria. From this attack however Mr. Pettingell is reported to have entirely recovered and to have regained his strength through the beneficial effects of the return sea voyage.

W. C. CAMPBELL SAYS GOUDY IS ALL RIGHT

As an indication of the high esteem in which Frank C. Goudy, Republican candidate for governor of Colorado, is held by those with whom he is acquainted and that those who know him best think the most of him as a man and as an able citizen, the following letter from Attorney W. C. Campbell, now in Prescott, Ariz., is worthy of notice.

Letters of a similar nature concerning Mr. Goudy and coming from Judge Campbell have been received by a large number of Colorado Springs business men.

Prescott, Ariz., Sept. 20, 1900.

Fred White, Esq.,
Colorado Springs, Colo.

My Dear Mr. White—I see that the Republican party has nominated Frank C. Goudy of Denver for governor of Colorado. I beg to say that I have known him intimately. Mr. Goudy for 25 years. He and I were classmates at the university of Michigan where we formed a friendship that has lasted ever since. He is an able, honest and fearless fellow and I sincerely hope that the Republicans of Colorado will give him enthusiastic support and that he will be triumphantly elected. I have no doubt that you will support him but I thought you might be glad to know in what high esteem he is held by one who has known him from boyhood.

Very truly yours,
W. C. Campbell

CHAMBER OF COMMERCE MEMBERSHIP GROWING

J. L. Sanger, secretary of the International Trust Co., Dr. J. T. Estill, Mr. Robert P. Bartlett of North Cascade avenue and Messrs. Forbes and Ware, brick manufacturers at Mount Washington, sent in their names yesterday requesting membership in the chamber of commerce.

The directors of the chamber are very pleased with the daily new memberships recorded and earnestly invite every business and professional man and every public spirited citizen to co-operate with them and to join the organization.

RUMORED GOLD COIN SALE

Officially Declared to Be Unfounded--Sinking by El Paso G. M Co. --Good Shipping Ore in 550 Foot Level of Pharmacist.

Special to the Gazette

Cripple Creek Sept 26—Frank M Woods of the Woods Investment company declares that the rumored sale of the Gold Coin mine is nothing but newspaper talk and further states that Harry E Woods—of the firm is not in New York and no negotiations are being made for the disposition of the Gold Coin company and that no offers that have so far been made have been considered

The El Paso Gold Mining company on the west slope of Beacon hill started their new immense compressor this afternoon and in the morning will have two machines in the shaft to aid in sinking to the 600 foot point From this level a drift to the vein will be made to prospect it at this depth The vein lies some 60 feet from the shaft.

Eclipse Vein Development

The Eclipse mine or the Eclipse company is drifting on the newly opened vein in the 350 foot level at 160 feet from the shaft So far assays running from 50 up to 2000 to the ton have been attained and the vein shows up from four to five feet wide The drifts are being run in both directions and upraises are also being made and in a week or ten days the full extent of the strike will be more definitely known The lot put in the are opening up better ore than there is above, and although the operations are hampered by the presence of considerable water, good progress is being made

A shipment was started from the Gold Dollar tunnel on the east slope of Beacon hill which will average about three ounces The consignment consists of about 5 tons The management is endeavoring to keep the average of shipments at three ounces as a matter of economy in treatment and transportation A total of 235 tons of average $ 0 ore was sent out in the first three weeks under the new management

Good Pharmacist Ore

In a north drift in the 550 level of the Pharmacist the vein which has been followed for some distance has opened up into good pay ore at 250 feet north of the shaft The grade of the ore changed suddenly from almost nothing to good $ 0 shipping ore and the high grade streak is widening out as the work progresses So far no work has been done on this vein in the upper level and work of exploring the ground above the vein will soon be commenced The lessees intend to follow the drift north as long as the ore holds out The ore in the east drift of the same level which was uncovered a few days ago in the vein which had not been before noticed is returning assays varying from $ to $160 to the ton and upraising on this vein has already been begun

A trial shipment of 11 tons was sent out yesterday from the Robinson lease on the Burns Six tons of this is in screenings which assays from three to four ounces and the remaining five tons of coarse rock the value of which is to be determined later The ore is coming from the vein at 200 feet from the surface and the west drift has been followed for 10 feet the east drift has not yet been touched

Tillery Vein in Columbia

The Columbia on the west slope of Beacon hill is now said to be in the Tillery vein and assays have been obtained ranging from $15 to $1,200 to the ton. However late John Barbee to nies having cut anything but a stringer to the vein and states that he will cut the vein tomorrow morning

F M De La Vergne of Colorado Springs is in camp and reports an excellent condition in the newly opened up eighth level of the Elkton mine He says that the vein in the lower workings is showing up in better shape than ever before

William A Weston operating the Good Will tunnel says that there is still 120 feet of crosscutting to do before the Anchoria-Leland workings are connected with the tunnel The connection will be of great advantage to both workings in the matter of ventilation and it is supposed that the Anchoria-Leland will do some extensive development work from the tunnel level

C M McNeill of Colorado Springs announces that the new sampler in the course of erection near the Midland tracks on the east slope of Bull hill will be ready for operation by December 1

Nugget shares were purchased heavily by officials of the company tonight and this points to the truth of the rumor that the Nugget Doctor litigation so long pending will soon be settled by a consolidation of interests

Pinnacle Shipment

A ten ton shipment of ore that is expected to run high as three ounces is ready to go out from the Mitchell claim of the Pinnacle G M Co The ore is from a two foot vein in the bottom level and carries considerable sylvanite The Mitchell claim has been idle for some time and the new lessees consisting of Chapman Smith Lewis and Kerin have taken it up and also installed a steam plant preparatory to some active development work A shipment of eight tons was made a short time ago

A shipment was made this morning from the Gold Bond Consolidated Co s lease on Gold hill consisting of ten tons from blocks A return of two ounces is expected and a new hoisting plant will be installed very soon

The lessees on the Jay Bird of the Robert Burns Co started the work of sinking their shaft this afternoon

The Wheel of Fortune Co received patent papers this afternoon for their Gold Charm claim on Tenderfoot hill

OFFICERS ELECTED YESTERDAY

The Board of Brokers Association Elected Officers and Named Committees--D. H. Rowley Elected President.

The directors of the Board of Brokers association who were chosen Wednesday met yesterday afternoon after the call on the exchange and elected the following officers President D H Rowley first vice president E S Bach second vice president Harry Ver Steeg secretary J E Cole and treasurer the Exchange National bank Committees were also chosen by the directors which are as follows

Membership.

F A Morath F B White, E B Hosman and George Pyser.

Listing

E S Bach J Greenwaldt K MacDermid and H. Ver Steeg

Arbitration

H Ver Steeg W E Hannon W T Davis and W J Graves

Governing

George Pyser F A Morath, K. MacDermid and F B Hosman

Auditing

E S Bach F B White D H Rowley and J Greenwaldt

The last committee is the new one which the directors deemed it advisable to add to the other ones

No other business of importance was transacted at the meeting which after having elected the officers and named the committees adjourned to meet on their regular day the first Wednesday next month

GOLD COIN NOT FOR SALE

There is an afternoon paper published in this city which when it has no legitimate news to offer the public presents under flaring headlines various wild rumors and guesses which are presented with a wealth of elaboration worthy of a better cause Although the Gazette could daily fill its paper by contradicting the many misleading statements made by its contemporary its policy has been to ignore misstatements and unreliable rumors and devote its space to news of a different character But a statement so entirely erroneous was published yesterday afternoon that it seems excusable to take the space to put the public right about it

The rumors yesterday afternoon in addition to half a column about John Hays Hammond and the Portland were devoted to the Gold Coin mine and many of them were published several months ago and have been revived periodically since then In reply to the statement that Mr H E Woods Messrs Reed Hamlin and F H Pettinger were all together in New York, where they were possibly considering a deal for the sale of Gold Coin it was learned from a gentleman closely associated with the management of the Gold Coin management that Mr Woods has not yet reached New York and would not for several days that the Gold Coin was not offered for sale and would not be considered for $18 000 000 or any other price

In short the rumors about the mine unearthed from the dusty files of the evening paper and again published yesterday afternoon are denied in toto by a person who knows

DEADWOOD'S MINING NEWS

Deadwood S D Sept. 28—W S Elder one of the leading attorneys of this city has been in the east several weeks working on one of the largest mining deals that has been attempted for some time The capitalists reside in Pennsylvania for the most part and the deal embraces the American Express and other groups of claims in Sheeptail gulch which is a tributary to Blacktail gulch The American Express group has been at one time a great producer of smelting ore but now that the cyanide process has become so perfect the owners of the property have stopped shipping and money is to be ... the great ore bodies that are being worked farther south A new company has been organized and it is stated that a large custom cyanide plant will be erected near this city Capitalists from Pennsylvania have been out to investigate the titles to the groups and the deal is practically closed

One of the largest and wealthiest companies operating in the hills at the present time is the Golden Gate also the Northwestern Gold and Silver Extraction company which is backed by the stockholders in the Golden Gate principally These companies have obtained possession of nearly two mile square of mining ground at the head of Blacktail gulch extending north to Polo creek The Golden Gate company has been shipping ore quite regularly for three years The Northwestern company has leased the 75 ton cyanide plant in this city and ore is now being shipped there from the old Kicking Horse mine and from the Maggy shaft D C Boley of Chicago is manager for both companies He has been the shrewdest buyer of mining property the hills has seen for some time His companies have ore enough in their ground to last many years The companies will eventually build a cyanide plant

The Detroit & Deadwood company has quit work on the City creek property in the city limits of Deadwood where it was hoped copper would be found The company brought out a so called expert from the east who had charge of all of the development work Working on a theory that certain formation carried ... the expert ran a tunnel 900 feet into the mountain. Copper ore is paying quantities was first discovered at the top of the mountain After spending several thousand dollars in the search for copper, the tunnel was abandoned and the copper belt in this part of the hills got a bad name as a consequence The mining experts of the Black Hills would have done differently in the opening up of this property and there is reason to believe that copper ore would have been found in paying quantities As has been the case many times before in the Black Hills a good mining deal has been spoiled by the importation of an eastern man who works entirely upon theories The company is out a lot of money and the eastern capitalists who furnished the money have lost faith in the copper resources of the hills The Detroit & Deadwood company blames nobody The company has an enterprise ... Annie creek, south of Ragged Top that will repay all the money lost in former undertakings A 100 ton ... plant is in operation now and it is stated that the success of the ore treatment is much better than anticipated

The University Mining company is still working on the vertical of ore discovered a month ago The values are increasing steadily as depth is attained into the mountain The ore body is now about four and one half feet wide One shift of men is also working on another vertical of quartz ore which was found ... 100 ft ... the first one Both veins have promise of ... The company has now set men at work on the property north of Custer which was found unlocated over a month ago There are five claims or 103 acres of ground in the group there being 6 000 feet of vein matter running from $1 60 to $8 80 per ton gold free milling The ground is near the Grand Junction mine which is always spoken of as the Homestake of the Southern hills A camp will be built in Tenderfoot gulch next month and development of the property will be pushed This is the company that was organized this summer by University people of Vermillion Students have been selling stock all over the state this summer vacation

The Pennsylvania Mining company which was organized by Rev Schenck formerly a pastor of a church at Lead has found some very rich ore across the gulch from the property being worked by the University company in Deadwood gulch Ore in considerable quantities has been discovered that assayed in the neighborhood of $500 per ton gold Rev Schenck has built a cabin at the mine and will live near his treasure this winter

At Portland another minister is developing mining property When Judge Giddings was murdered ... a ... on at Central City two years ago his brother Rev C F Giddings was a presiding elder in a city in Texas Judge Giddings left a large number of valuable mining claims around Portland and his brother came to Deadwood soon after the death and took charge of the property Rev Giddings has built up a very strong church in the First ward of this city a new church building having been completed ... He has recently organized a mining company and is now devoting a large share of his time to the development of his brother s property

Deadwood has still another divine very prominent in church work who is interested in mines and mining Bishop Ware who has charge of the Episcopal churches in both Lead and Deadwood has time to spare for the development of the Uncle Sam mine located 12 miles south of this city and other mining properties He also owns large cattle herds out on the ranges and he has a ranch in Nebraska where he fits his stock for market He carries on all this outside work but not to the neglect of his parish work

It is known that a number of the other preachers in Lead and Deadwood have stock in the different mining companies operating in Lawrence county

MINING NOTES AROUND TOWN

Work is steadily progressing on the Alamo company's property and the shaft is now considerably below the 200 foot point and will be continued rapidly until it is down 500 feet Crosscutting has been started from the 200 foot level west of the shaft as it is thought that ore run in that direction will be successful in opening a vein which comes in from the Superior claim and which has been mined profitably on that property Drifting is in progress on the east vein where the showing is said to be very encouraging

CROSSCUTTING ON THE JOSIE S CLAIM

Crosscutting has just been started on the Josie S claim of the Lamertine Gold Mining company at the depth of 170 feet. The shaft has just reached that depth and from now on active efforts will be made to cut one of the veins which is known to cross the property The Josie S is located on Raven hill and some good indications were found in the veins in the upper levels which induced the operators to sink to the present depth

ENGLISH SYNDICATES AND THE CAMP BIRD

John Hays Hammond who went to Ouray to examine the Camp Bird mine in behalf of an English syndicate is back in Denver and will say nothing It is reported however that although the mine has been favorably passed upon Mr Walsh the owner ... price for it larger than the English syndicate is willing to pay Two syndicates the Venture Corporation ... of Stratton's Independence and the International syndicate have both sent experts to examine the property The latter syndicate subscribed $5 000 000, which it thought ought to be enough to meet Mr Walsh's demands but rumor has it that this sum is far from enough The fact that these two rich syndicates are bidding for the property in Ouray is a big testimonial to the value at which Colorado mining properties are held in England

WHEEL OF FORTUNE'S GOLD CHARM PATENTED

A patent has just been received in this city by the Wheel of Fortune Consolidated Gold Mining company for its Gold Charm claim three acres on Tenderfoot hill The company s two claims on Grouse mountain are in process of patenting a receiver's receipt being expected in a few days This company is getting its property patented rapidly and will soon have a complete title to all its holdings

W. H. FAIRALL GOT THE NOMINATION

For County Commissioner.......... W. H. FAIRALL

The El Paso county Republicans yesterday placed in nomination for the office of county commissioner, a citizen of Colorado Springs, now serving his second term as the city street commissioner, a man whom all men of all parties will agree is well qualified for the duties of the position.

In the language of S. H. Kinsley, who seconded the motion to make the nomination of Mr. Fairall unanimous, after leading the campaign for the nomination of Mr. Alex Strachan, "Mr. Fairall is a good man, a good officer and a good Republican."

A good many beside Republicans are predicting the election of Mr. Fairall by a sweeping majority.

An Interesting Convention.

Yesterday's convention was one of the largest and most interesting county conventions that has ever assembled in El Paso county. There was apparently little to do but when the delegates got together they found themselves in line for a contest of no minor importance. There was no wrangling or unpleasantness of any kind whatever, but there were three candidates in the field for the one nomination that the convention was to make and each had a backing in the convention that made the race for the nomination an interesting one. An informal ballot, taken to test the feeling of the delegates, showed that Mr. Fairall had a little more support than anyone else, that he was pressed close by Alex Strachan, and that Mr. Pebbles could muster about [illegible] votes. The informal ballot that followed took one vote from Strachan and gave all but six of Pebbles' votes to Fairall, nominating him by a good safe majority. Delegates from all over the house then rose to make the nomination unanimous, the motion finally being made by Editor Ellington of the Fountain Herald, who had placed the name of Mr. Strachan before the convention. His motion was seconded by S. H. Kinsley, as stated above, and the work of the convention proceeded.

Proceedings of the Day.

The convention was called to order in division No. 1 of the district court in the afternoon. County Chairman Chambers having accompanied the Roosevelt party to Cripple Creek, John A. Voorhees, secretary of the county central committee, wielded the gavel and called for nominations for temporary chairman. James A. Orr placed in nomination Mr. W. P. Epperson, and the nomination was seconded from several parts of the house. There being no further nominations Mr. Epperson was elected without opposition. Mr. Epperson made a short address upon taking the gavel, stating his pleasure at being accorded the honor of presiding over a convention of the reunited Republican party of El Paso county. He said that the Republican party of Colorado intended not only to cut down the 130,000 majority scored against it four years ago, but intended to place a good clean majority over on the other side of the ledger, and he appreciated the honor accorded him by his party all the more because of this fact.

At the conclusion of Mr. Epperson's speech, a motion prevailed that the convention adjourn to Temple theater as the courthouse was too small to accommodate the delegations.

Upon reconvening in Temple theater the call for the convention was read by Secretary Voorhees. Following the call the election of a temporary secretary was called for and N. L. Gilmore was elected with J. H. Childress as assistant. Neither gentleman had any opposition.

Upon motion of Arthur Cornforth the chair appointed committees on permanent organization and rules and order of business and on credentials as follows:

On credentials, Charles Long, Mr. Elliott of Monument; Judge Kinsley, James A. Orr and John F. Morgan; on permanent organization and rules and order of business, Arthur Cornforth, James Taggart, C. W. Kinsman, W. H. Gowdy and John Eichen. Upon motion of C. P. Bennett, the chair also appointed a committee on resolutions which was composed as follows: Maj. McAllister, H. A. Mullen and C. P. Bennett.

The convention then took a recess of 10 minutes, while the committees conferred.

Upon reconvening at 3:20 the rules and order of business were reported by the committee, of which Arthur Cornforth was chairman. There being no contests the roll in the hands of the secretary was made the roll of the convention.

For County Commissioner.

Nominations for the office of county commissioner being called for J. A. Orr arose, and in a well-put speech placed before the delegates the name of Mr. Fairall. He was followed by H. L. Ellington of Fountain, editor of the Herald, who presented in a neat speech the name of Alex. Strachan, and O. B. Willcox named Jerome F. Pebbles.

H. H. Grafton, W. McK. Barbour, Charles Leibold and Burk Potter were named as tellers, and an informal ballot was taken. It resulted:

Fairall	66
Strachan	45
Pebbles	25

The formal ballot, which followed, resulted:

Fairall	[illegible]
Strachan	44
Pebbles	6

Mr. Fairall having received a majority of all ballots cast, Chairman Epperson declared him the nominee of the convention and the nomination was immediately made unanimous.

The Resolutions.

Through H. A. Mullen the committee on resolutions reported as follows:

Your committee on resolutions report as follows:

1—Resolved, That we most heartily endorse the [illegible] of President McKinley as to his policy at home as well as abroad. We particularly applaud his policy relative to the Philippine islands and the magnificent diplomacy that has characterized his solving of the Chinese problem. He has placed the United States among the foremost powers of the world.

2—We also heartily endorse and uphold the splendid career of our junior senator, Edward O. Wolcott, and take pleasure in commending him to the support of every patriotic citizen of Colorado.

3—We condemn the policy of the present fusion officials of Colorado, who have, despite the illimitable resources of the state, reduced it to bankruptcy, compelling our many state, penal and eleemosynary institutions to beg from door to door for the means to keep their charges from starvation, and depriving our educational institutions of the means to make themselves useful.

4—We believe, we express the views of every patriotic citizen of the state, in denouncing the actions of the late fusion conventions in Denver, in laying upon the bargain counter the many offices that should go only to those whose qualifications fit them for public service.

5—Resolved, That we believe that the interest of both labor and capital should be carefully conserved, and that the legislature should pass, in the interest of the former, a law making eight hours a legal day. We condemn the action of our hydra headed opponent in setting class against class, labor against capital, without a sincere sympathy with either.

6 Resolved, That we hope at an early day to see our beloved state take her place in the Republican phalanx and we renew our allegiance to that party which has won the admiration of all nations and has made our country the glory, the hope, the wonder of the world.

H. A. Mullen,
H. McAllister,
C. P. Bennett,
Committee.

Chambers for Chairman.

Mr. Arthur Cornforth named as a candidate for chairman of the county central committee Mr. R. L. Chambers, the present incumbent. The election of Mr. Chambers was unanimous. On motion of J. A. Orr the central committee was made to consist of nine persons instead of two from each precinct, which would make a committee of 84 persons. On motion of W. McK. Barbour a committee of three selected nine persons as members of the central committee and as such the convention elected the following:

Mrs. C. J. Tiffany, Mrs. C. A. Eldredge, Alex Strachan, R. E. Brooks, H. H. Grafton, R. C. Elliott, W. H. Duncan, W. P. Epperson and Burk Potter.

A motion that the ticket nominated be declared the ticket of the Republican party was passed.

On motion of Major McAllister the convention passed a vote of thanks to the ladies who had furnished a lunch at noon.

The convention then adjourned.

FRESHMEN WON TWO OUT OF THREE

Defeated Sophomores in Tug-of-War and Football.

SOPHS TOOK CANE RUSH

Class Contests Occurred Yesterday and were witnessed By Large Crowds—In Charge of Upper Classmen.

The freshmen won the tug of war at the college yesterday afternoon and the sophomores won the cane rush. As the freshmen won the football game the day before they were awarded the championship or whatever honor it was they were struggling for. At any rate they earned the right to crow and crow they did to an extent that left them and their supporters very hoarse.

The contests yesterday evening were witnessed by nearly the entire student body and a large number of spectators including citizens and former students of the college. Owing to a prolonged dispute over the eligibility of one of the freshmen the cane rush which was to have come off at 5 o'clock was delayed nearly an hour. As the weather was damp and chilly the crowd got impatient but the students managed to keep themselves warm by frequent indulgence in class yells which served to heighten the interest in the matches. The class rivalry was intense. All the girls were out bedecked with ribbons and the seniors and juniors were there too, to urge on their proteges with cheers and suggestions. It was a lively scene and as the two classes finally lined up for the rush the excitement grew intense.

The rush was in charge of Otway aPrffee of the senior class who had Hoyne, '02, and Cross, '01, as assistants, while Ray M. Dickinson and E. H. Carrington held the watches.

The cane, a stout hickory stick about an inch in thickness, was held by two representatives of each class. The other six members of each team lined up about ten feet behind their representatives on the cane. The whistle blew and the men rushed to the attack. The cane went to the ground at the first assault and for a minute there was a lively scramble to get hands onto it. Then began the work of holding on. Each man took a firm grip on something and then held for dear life. Arms and legs were all that could be seen, the heads were down in the pile somewhere. Occasionally some one would try to jerk some one else off the pile but as a whole there was no struggling worth mentioning. In fact it was a very tame affair all the way through. At the conclusion of eight minutes the whistle blew and the rush ceased. The officials immediately counted the hands on the can and it was discovered that the freshmen had seven while the sophomores had twelve.

The tug of war, however, was not tame. It was a terrific contest. Each class had eleven men on the rope and they pulled for every ounce in their make up. Two pulls of three minutes each decided the struggle, the freshmen winning both.

On the first pull the sophomores got about a foot and a half advantage at the start and held it for two minutes. Then Wheeler, the big freshman who was "anchor" for his side, braced himself and called upon his men to pull. Then he straightened out and the others had to come. The sophomores were tired out while the freshmen were just beginning to work. The white rag which marked the center of the rope was gradually pulled past the starting mark and when the three minutes were up the freshmen had it about two feet on their side.

On the second pull the freshmen took the advantage at the start and added to it later, winning with ease. The sophomores made a desperate effort to regain the ground, but Wheeler was sitting at the other end and they couldn't budge him.

The tug of war was decided by the same officials, with Griffith, '01, holding the mark.

Theodore Roosevelt

STATESMAN, HISTORIAN, ECONOMIST, AUTHOR AND SOLDIER, GOVERNOR OF NEW YORK, AND CANDIDATE FOR VICE-PRESIDENT OF THE UNITED STATES

Promptly upon Governor Roosevelt's nomination for the Vice-Presidency, the leading Republican and independent newspapers, believing they would be rendering a public service, formed an association to act as one buyer of an enormous edition of Governor Roosevelt's writings, so that all newspaper readers could obtain a fine library edition at a nominal price. The representative of the papers arranged with Governor Roosevelt's publishers, Messrs. G. P. Putnam's Sons, to obtain from them a limited edition to be sold for

$7.50 A Set in Cloth Binding, Instead of at $24.50

the price which has heretofore prevailed. This edition is

To be SOLD to NEWSPAPER READERS ONLY

in sets of Fifteen Volumes for $7.50, or in single Volumes

For 50 Cents a Copy

They also arranged for a limited number of copies to be bound in paper covers, with untrimmed edges; so that those desiring it could have the works bound in half calf, or other fine and expensive binding, as individual taste might desire. In this form they will be sold for the almost nominal price of $3.75 for the set of Fifteen Volumes, or in single volumes

For 25 Cents a Copy

The Messrs. Putnam's well known and well deserved reputation as makers of fine books, renders a further description of this beautiful edition unnecessary.

It may be stated, however, that amongst the illustrations will be found three separate portraits of Governor Roosevelt, as huntsman, soldier and in civilian dress, and that

GEN. FRANCIS VINTON GREENE

has written a biographical sketch of Governor Roosevelt which will appear in this edition only.

Remember the price heretofore, in cloth binding, cheapest edition, has been $24.50, and in finer binding up to $100 a set, at which many copies have been sold.

The present price of 25 cents a volume, or $3.75 for the set in paper covers, and 50 cents a volume, or $7.50 a set in cloth binding, has been made with Governor Roosevelt's approval, to enable all his friends and admirers (and they are legion), as well as his opponents who are honest in their desire to know him as he is, to secure the set of these works at a moderate price. They will form a permanent and valuable addition to every library. The edition is limited and after newspapers have made the distribution to their readers the regular price of $24.50 a set will prevail. Therefore delay in ordering now may lead to disappointment.

ACT NOW AND SECURE THE SET

TITLE.

Volume I.
American Ideals. with a biographical memoir by Gen. Francis V. Greene

Volume II.
Administration Civil Service.

Volume III.
The Wilderness Hunter.

Volume IV.
Hunting the Grisly.

Volume V.

The Spread of English Speaking Peoples.

Volume IX
The Winning of the West. Part II In the Current of the Revolution.

Volume X
The Winning of the West. Part III. The War in the Northwest.

Volume XI
The Winning of the West. Part IV. The Indian wars, 1784-1787.

Volume XII.
The Winning of the West. Part V. St. Clair and Wayne.

Volume XIII
The winning of the West. Part VI. Louisiana and Aaron Burr.

Volume XIV.
Naval War of 1812. Part I.

Volume XV.
Naval War of 1812. Part II

To form a true estimate of Governor Roosevelt's character one must read his writings. They show, as no words can, what the man is.

Over One Hundred Daily Papers take part in the distribution in one hundred cities throughout the country, and the Gazette undertakes the task, or rather the pleasure of supplying its readers for this section with any one or all of Mr. Roosevelt's books as above as long as the edition lasts. The right to withdraw this offer as soon as the proportion of the edition allotted to the Gazette is exhausted is reserved, in which case all moneys received too late will be returned.

MAGNIFICENT PHOTO GRAVURE PORTRAIT OF GOVERNOR ROOSEVELT FREE

To all who remit $3.75 for the complete set of 15 volumes in paper covers, or $7.50 for the complete set of 15 volumes in cloth covers, there will be sent, free-of-all charge, a beautiful photogravure portrait of Governor Roosevelt, printed on INDIA PAPER, and mounted on fine plate paper, suitable for framing. This is a duplicate of the portrait appearing in the $100 edition of Governor Roosevelt's works, and is considered the best likeness extant. If bought in the art stores it would cost at least $1.00. Framed, it will make a most desirable addition to every library or office.

HOW TO SECURE THE VOLUMES

This voucher will appear in the Gazette. Clip one of them and send to the Gazette, Colorado Springs, Colorado, with price of volume desired, and the volume selected will be promptly delivered by mail; allow a few days for the volumes to reach you, as the books are mailed from New York.

Readers desiring the complete set may send $3.75 for the paper-covered edition, or $7.50 for the fine cloth-bound edition, and the 15 volumes will be promptly delivered or sent by express, charges prepaid.

Consumption's Death Roll

keeps rapidly lengthening and in an ever increasing ratio. Just as science had begun the mastery of the most dreaded of diseases La Grippe appeared and left in the system of thousands of persons the germs of consumption, and a weakened condition which made it impossible for nature to throw them off. Thousands of consumptives to-day, ignorant or unmindful of the more modern methods of treatment, are gradually approaching death through consumption which can be directly traced to La Grippe. Hundreds of others from overwork, colds and coughs and like beginnings are travelling the same road in utter hopelessness, with everything to live for, and, they think, no hope of living.

Are You One of Them?

Then consider before it is too late. The second stage of the disease once passed and hope has forever departed. But for all those in the first and second stages there is prolonged life and health if the correct treatment is begun in time. Have you consumption? Have you its first symptoms? Do you show signs of having them? Do you know that you haven't them? Make sure before the period of hope is passed. Live while you may. Don't die from pure neglect. There is hope! There is life! There is health! Do you want it? Then take advantage of Dr. Shepard's

Free Examinations!

Receive the benefit of his twenty-five years special study of consumption and its causes and treatment. He will tell you your exact condition, and without cost or obligation on your part.

He has examined, treated and cured thousands of cases of consumption. He can, better than any other physician, examine, investigate and explain your case. Let him. The thousands of free examinations he has made gives him a greater knowledge of this disease than any general practitioner can have. Do you want the benefit of that knowledge? Do you want hope? Life? Health? Then see him now.

Hours for free examination: 11 to 12 A. M., and 4 to 5 P. M. except Sunday.

DR. W. A. SHEPARD, Suite 15, Barnes Block

What is Home Without a Stove.

Although it's only September, the days are getting shorter, and the nights and mornings are becoming quite cool. Makes one think of cheerful fires and snow. Better be prepared early by buying a

Cole's Hot Blast Heater.

The fuel saved in one season will pay for the stove. The fire is not out through the entire winter.

Prices, $11.50, $14.50, $16.00 and $17.50

HEATH & REINKEN

MRS. INGLIS HEARD FROM

Sister of Mrs. W. H. R. Stote Writes of Terrible Experiences in Peking

Now Homeward Bound.

Colorado Springs people by the hundreds have been waiting anxiously with Mr and Mrs W H R Stote ever since the situation in China became critical for information concerning Dr and Mrs John Inglis who were at the Presbyterian hospital in the city of Peking Mrs Inglis being a sister of Mrs Stote of Colorado Springs and formerly is Miss Theda [illegible] was one of the best known and most universally esteemed teachers in the high school of this city

The family of T L Marshall of Osage City Kansas to which family Mrs Stote and Mrs Inglis belong a few days ago received two letters from Peking one from Dr Inglis and one from his wife the latter begun before the relief of the [lega]tions and finished [illegible] Tientsin Seldom have [illegible] letter that have been published anywhere given an insight to conditions in which human beings have found themselves nor in thrilling details are the narrative of miraculous escape equal to the conditions indicated by the letters from Dr and Mrs Inglis

Through the kindness of Mr and Mrs Stote the Gazette this morning publishes the letters practically in full Dr and Mrs Inglis have started for home having [illegible] August [illegible] and they are [illegible] to be [illegible] in June

The letters follow

[illegible] China Aug [illegible] 1900

Dear [illegible]—We [illegible] [illegible] We are [illegible] fairly well [illegible] [illegible] [illegible] [illegible] [illegible]

[illegible]

[illegible] probable that we shall go to the United States

Our chief anxiety now is for you [illegible] at home We [illegible] you may [illegible] us as dead [illegible] [illegible] shall [illegible] [illegible] [illegible] you [illegible] night [illegible] Hope you [illegible] We cannot tell you [illegible] will [illegible] [illegible] [illegible] We may [illegible] to return via London Can[illegible] But [illegible] [illegible] [illegible] see you all [illegible] [illegible] think of going home [illegible] [illegible] our [illegible] Elizabeth But we have [illegible] [illegible]

There is a special prise service this [illegible] [illegible] park for the relief of Peking and Tientsin

Yours sincerely
[Jno] Inglis

P S Of course [illegible] lost everything we had in the world but what we had [illegible] [illegible] [illegible] home [illegible] The first thing we have to do is to get [illegible] [illegible] as I am afraid you [illegible] take us in as we are I am wearing an army hat shoes socks and underwear bought from the army store They are all I could get here Clothes cannot be got in Tientsin at present

Peking China Aug 14 1900

Dearest Mother Father and All—Two months yesterday since our house was our [illegible] since we came to the British legation but our [illegible] pounding away on the south city wall We have been unable to [illegible] again for five days now, two days of carnon and rifles the last two nights we have had the hardest attacks we have experienced Last night they began before sunset and eased with dawn But between their volleys we heard the roll of distant cannon and the rapid "click click" of a machine gun planted by our relief force at the Sung Ting Men the entrance to the south city They will have a double gate to pass through to get here but they will enter [illegible] at the legations None of us slept Everyone was excited I saw Lady MacDonald dart across the court the bullets whizzing about her like hail and into the main hall for the news

Many many times there have been rumors of foreign artillery until it grew to be a standing joke But last night we all heard it roll upon roll volley after volley and this morning plainer than ever Last night the firing was so dreadful that I thought perhaps God took the baby to save her a worse death and I thought of her in her quiet little grave the awful guns the pounding nothing disturbing her But when I heard the artillery so near heard by [illegible] [illegible] laughing and talking all around I could only creep back to bed and weep for the little one for oh how we had planned to celebrate this day.

Mrs Lowrie's husband was born in China and he is coming with the United States troops as interpreter Mrs Lowrie has not seen him for sixteen weeks and he is wild with delight

In all these eight weeks we have been all [illegible] [illegible] four messengers to Tien tsin and return Think of it Our refugees are almost starving We are nearly at the end of our horse meat having now killed 84 Every man who [illegible] [illegible]

The heat and dampness for three days past has been most enervating Our clothes are saturated most of the time I have been ill for the past two days but I will get up today to see the troops come in Word came on Friday last to expect them on the 13th or 14th as they were simply driving the Chinese before them

Life here has been very unpleasant for some time past The fleas and mosquitos are dreadful and the sand flies are worse Many are sick with diarrhea and a low fever Dysentery has attacked Russian soldiers The second Russian victim was expected to die last night The Chinese babies are dying by the score but they are in a separate compound

Of the nearly 400 membership of our Presbyterian churches in Peking only forty five escaped here as refugees We have good reason to believe that the others have been slain On July [illegible] the [illegible] issued an edict ordering them to recant or be killed Several times the Tsung li Yamen ordered us to [illegible] but the ministers refused Those who escaped the Boxers I am sure must have been killed under edict It is said the empress has fled to Shan si the ancient capital of hers

It has been two months and more since we have had any news of the [illegible] except Counsel [illegible] note of McKinley's nomination Peking itself is a sealed book to us What tales what tragedies we have yet to learn And what of the poor inland missionaries? How could they [illegible] We are almost afraid to ask of Pao [ting]

August 2[illegible] 1900

I thought I had lost the letter commenced August 14th but found it in my journal today so I will finish the unfinished It was interrupted by the cry of The troops have come! I jumped up dressed hurriedly and ran out into Lady McDonald's front hall in time to greet the British officers The court outside was filling with magnificent Sikhs all turbaned and [illegible] [illegible] O what cheering huzzas and tears old Gen Gazelee and the officers bronzed and sweating and had trembling voices as well as tearful Yes With them 400 Indian Sikhs entered the southern city after sending a few shells through the gate and then instead of shelling their way into the North city they crept man after man through the water gate or where the city canal runs under the city wall This canal is now dry The British were first in the North city The United States troops got their way in the South city and wandered about for the hour first the United States flag was first floating from the wall of the Chien Men gate from which [illegible] [illegible] As the cheering [illegible] [illegible] and increased also the fire from the Chinese [illegible] not having seen the entrance of our troops they thought to silence [illegible] unusual noise One Indian soldier was badly wounded and a French woman was struck in the leg by a fragment of a shell A shell exploded in Sir Claude McDonald's bed room A bullet came into our room so the Sikhs said We hadn't any fun today and they picked up their guns and went out and drove the [illegible] [illegible] Chinese from their barricades without losing a man

Eighteen twenty British and United States reporters came along also young Mr Lowrie who broke down and wept when he met his wife and friends whom he had mourned as dead It was a surprise to us that the rumors of our massacre in detail Prison and hanging are too good for some journalists

Our danger was great but God's omnipotent hand saved us The stories we hear of missionary friends their sufferings in many cases of their murder make us heart sick We cannot speak of Pao ting fu friends to each other Their massacre has been proven beyond a doubt A trusted servant came from there and relates that their [illegible] [illegible] then all were led in company to a Boxer's yard by the river and beheaded except Mr Pitkin who was executed in his own yard One small woman was so overcome that she had to be carried Dr Taylor's head was presented to the yamen authorities as an offering Fifty one missionaries were murdered in the yamen belonging to the governor of Shan si whither the empress has fled with her court As I think of all these murders and outrages I almost lose my self control

Our trip from Peking to Tien tsin was most uncomfortable We were deserted by the major in charge of the convoy on a sand bar for ten hours, [illegible] [illegible] [illegible] The [illegible] banks were strewn with dead bodies of Chinese The river banks were lined with corn and the soldiers fire at every rustle among the leaves for they intend to keep the way clear We left Peking on the 21st of August The city has been looted and a great portion burned

A big English convoy came down today and reported all foreigners soon to be ordered out Our church expects to remove the refugees to Chi fu district where there has been no uprising as yet Consul Colles invited us to tiffin the day we arrived at Tien tsin and we enjoyed it so much A table cloth and napkins real beefsteak etc, think of it Sir Walter Hillier was there also Capt Bailey military governor of Tien tsin

There is no American transport here no steamers running so we all expect to leave here on Wednesday August 20 on a big British transport that carries us for $8 Mexican a day, clear to Calcutta This is less than the fare by steamer to Shanghai We prefer to return home via Europe—when we can do so without extra expense and only a week or two difference in time The thing that recommends it most to me is that we will visit the Doctor's parents first then on home where I can stay a good long time I know that when I get home I will wish to stay This home going is so different from what we planned God only knows how hard it was to tear ourselves from our darling's little grave in Peking

All our plans are gone We come to you empty handed as we went out but we know we love you better and know that you praise God for our deliverance—a deliverance that grows more and more marvelous as we gain new knowledge every day of the empress deep laid plans Her fuse was lighted just a little too soon or we would not be alive to tell the tale Love to each one [illegible]

Theodora

P S—Miss Newton Miss McKillikan Dr Leonard and Rev Drs Wherry and McKay remained in Peking to look after our remaining fifty church members Mr Walter Lowrie of Pao ting fu who was in Tien tsin when the war broke out had a place ready for us to stop when we arrived here Mr Miller of Pao ting fu also is here He and his family escaped to Corea from Pie tai ho Last night we met for praise service in the British park—the church of England service band music and wonderfully eloquent and impressive address by Mr Lowrie The Peking refugees and the soldiers of [all] nations were present to take part in the grand service How my heart turns homeward! Both the Doctor and myself need to get away from Tien tsin The Fenns are here Mrs F is not well Mrs Cart a lovely English lady—lost her beautiful baby the day we left Peking Oh how my heart cries for my baby day and night but Mrs Simcox's little girl born the same Sunday was brutally murdered So in this way I am led to thank God for his mercy I will write again tomorrow

Theodora.

TOOK OUT A LICENSE TO MARRY HIS WIFE

County Clerk Reed had a peculiar question to solve yesterday A man from Perry Park Douglas county Colorado presented an application for a marriage license for himself and his wife from whom he had been divorced scarcely two weeks Under the law parties divorced are not allowed to marry again within one year (as the law is generally read) but a close examination into the wording of it showed that divorced parties are not allowed to marry any one else within one year but there is nothing to prevent them from marrying each other within that time if they so desire

In view of this fact Mr Reed, after consulting several authorities decided that he would issue the license and did so The parties concerned were Mr and Mrs John Gray who were divorced at Castle Rock on Sept 14 on statutory grounds The divorce was asked for by the husband, who yesterday applied for the license to remarry his wife It is the first instance of the kind that has come up in the local county clerk's office

GREAT NORTHERN TUNNEL.

Big Bore Through Cascade Mountains Completed

St Paul Sept 26—President Hill of the Great Northern has received from Chief Engineer Stevens a telegram stating that the east and west crews in the immense bore through the Cascade mountains have met The two forces working from opposite ends in the big tunnel brought the two ends together without variation of an inch Now that the tremendous task of boring out over two miles of granite has been accomplished the work of laying the tracks is comparatively insignificant

The tunnel will now be rushed to speedy completion It is estimated that the tunnel when finished will have cost $5 000 000 One thousand men have been engaged nearly three years in its construction and all records of tunneling have been broken The average progress was from 18 to 20 feet per day The tunnel will supersede the switchback over the Cascades which in itself has always been looked upon as a magnificent engineering achievement

Round Trip Rate Pueblo

Account street fair Santa Fe will sell tickets to Pueblo and return at $1 50 Oct 3 4 and 5 good for return to 7th inclusive

The Denver & Rio Grande will make an open rate of $20 to Salt Lake City and return on October 4 and 5 The final return limit will be October 31

NOTICE

One year ago we opened a GROCERY AND MARKET AT 12 EAST HUERFANO STREET and while our business has been very satisfactory we have decided in the future to do a strictly cash business and to give our customers the very best goods at the lowest price Below we quote you a few prices Please compare and then bring us your order On this day we will sell

100 lbs best Colorado flour for	$1 65
50 lbs best Colorado flour	85
100 lbs best Colorado Potatoes	1 10
50 lbs best Colorado potatoes	5[illegible]
[illegible] lbs best Colorado potatoes	25

WEAKNESS OF THE DEMOCRATS

Disclosed by Necessity of Holding Campaign Meetings Sunday.

BRYAN AND THE CROKER DEAL

Candidate Refuses to Curtail Stumping Tour in Illinois — Disgust With Stevenson's Methods

(From a Staff Correspondent of the Philadelphia Press)

Chicago Sept 23—The fact that the Democrats held two campaign meetings today in this city, both having been well advertised caused considerable public comment In view of their claim of 60 000 majority in Cook county which includes the city they will find it difficult to explain the need of holding campaign meetings on Sunday unless they expect to appeal altogether to the godless The Republicans do no campaign work on Sunday and no one was to be found today at their headquarters

A vigorous effort will be made this week to dispel the apathy that seems to rest on the state Democrats and Republicans alike complain of it

Representative Bailey of Texas who has been talking in this state is quoted as expressing his surprise at this apathetic condition which he says was a matter of complaint on both sides Excluding local meetings to be addressed by local speakers the Republican state committee has arranged for 140 meetings to be held this week outside of Cook county to be addressed by seventy four different speakers Ten United States senators and numerous members of the house including Representative Brosius of Pennsylvania will be among the speakers In addition there will be a large number of meetings in this city Among the speakers will be such men as Senators Frye Depew Thurston Foraker Burrows Spooner Quarles Beveridge Cullom and Mason Speaker Henderson and many other members of the house President Schurman of Cornell university and other equally prominent men This will give assurance to the party that nothing will be left undone to arouse the Republicans of this state to the danger of the seeming apathy that has settled on them

To Help Croker

The contemplated change in Bryan's programme for speeches in this state has led to a disclosure of Democratic weakness that is causing the party leaders much trouble To give more help to Croker in New York the two days assigned to Bryan in this state as previously agreed upon were to be cancelled Chairman Watson of the Democratic state committee was so informed and before his departure for St Louis on Friday he made a public statement to that effect This brought numerous protests from committees which had arranged for Bryan meetings and Bryan himself sent word that he had not authorized the cancelation of the dates Thereupon Senator Jones of the Democratic national committee denounced the author of the report as "an infamous liar" but when his attention was called to the fact that Dr Watson the chairman of the state committee was the author of the report and that it was printed on his authority in a Democratic newspaper Mr Jones had no more to say

There is not the least doubt that a compact has been made by Jones with Croker whereby the committee is to give Croker all the aid it can and that in return if Bryan is elected Croker is to control the federal patronage in New York state Mr Bryan is said to have reluctantly given his consent to this arrangement but when they asked more time for Bryan in New York than he had agreed upon to give he kicked

Croker is said to have a written agreement with Chairman Jones over which Bryan is sore and he does not want to exhibit himself too much under Croker management That is the explanation of the trouble about Bryan's Illinois speeches

Contest in Indiana.

The claim of Chairman Jones that Bryan will carry Indiana does not rest on anything more than did a like claim by Jones in 1896 H. S New the Indiana member of the Republican national committee who is also a member of the executive committee in conversation with the Press correspondent today on the subject said

I think that you will find Indiana all right when the votes are counted but it is a close state and always has been so and every inch of the ground has to be contested I saw in an interview in some of the Chicago newspapers with Chairman Martin of the Indiana state Democratic committee that he claimed 25 000 majority in the state for Bryan That is rot No candidate for president since the war at least ever had such a majority in Indiana Grant had 22 000 in 1872 and the largest since that time was the plurality of 18 000 given to McKinley in 1896 McKinley's majority in the state over all the other presidential candidates was only 9 83[?] Harrison's plurality in 1888 was only 2 348 while Cleveland had 7 125 in 1892 Garfield had 6 6[?]1 plurality in 1880 and Cleveland 6 512 in 1884 Such small pluralities in a state which cast 63[?] 000 votes in 1896 is of course a close state

But the state is in good condition There is no weak spot except it be some local county contest There are four close congressional districts but I think the Republicans will carry three of those districts The stoppage of work in the gas belt owing to the disagreement between the Amalgamated Association of Iron and Steel Workers and owners of the mills has caused some anxiety but that dispute was settled last night and the men are to resume work at once The farmers are prosperous and the Republicans are in better condition than in 1896 Some of the Gold Democrats who look for future preferment in their party and want to be regular have gone over to Bryan but they are a small percentage of the total Gold Democratic vote In my opinion Indiana is safe for McKinley, but we have to make a fight for it

Democratic Hypocrisy

Governor Tanner who made a campaign speech in this city last night expressed his disgust with Adlai E Stevenson the Democratic candidate for vice president The governor said

"Mr Stevenson Mr Altgeld and Mr Bryan are accustomed to refer to Abraham Lincoln in terms of positive affection Just think of an old war copperhead like Adlai Stevenson who spent the years of his prime cursing Lincoln and cursing everything that Lincoln stands for in American history going about at this day mouthing his name to get votes

"It may surprise you to know that his hypocritical Democratic party was abusing Lincoln and Grant and all the great men [illegible] with them throughout their entire career more vehemently if possible than they are now abusing the Republican statesmen of the present day All Mr Stevenson has to do in the present canvass is to get out his old Copperhead speeches of 1864 rub out names of Lincoln and Stanton and Seward and write in their places the names of McKinley and Root and Hay He need not invent new terms of abuse for he will find all he needs there

The governor also paid his respects to ex Governor Altgeld and gave particulars as to the stealing of $983 000 in seven state institutions under Altgeld's rule This is the same Altgeld who is shouting so loudly for Bryan and who is said to have been promised a cabinet office or a judgeship if Bryan is elected

The speeches of Senator Tillman of South Carolina in Wisconsin have helped the Republicans His boasts in the senate that the Democrats in the south disfranchised the colored voters by shooting them and stuffing ballot boxes and by otherwise intimidating them and that the southern Democrats were not ashamed of it has been made so prominent wherever Tillman has appeared that he has been a good deal of aid to the Republicans His talk about the Filipinos being governed without their consent contrasted with his boast of disfranchising 1 000 000 colored voters in eight southern states has made the imperialism cry supremely ridiculous The Wisconsin Republicans [illegible] glad to have him remain in the state until election day

Leading Republicans are offering to wager that Wisconsin will give not less than 75,000 majority for the Republican national and gubernatorial tickets this fall but there is no betting to speak of

A few wagers have been made that McKinley will have 75 000 majority but the sums are small

On the Bloody Field of Tien-Tsin

The Ninth had now been ordered to advance and they were crossing the field in open skirmish order I joined them and soon we were massed among troops of all nations in the shelter of the great wall while the shells ripped the air overhead with a sound like the tearing of cloth and the bullets hissed on their way to the field that we had just left Through the gateway the ruined Chinese buildings were dimmed by artillery smoke and the figures of the men could be seen moving quickly as they served the guns On each side of the gate stood rows of Japanese ponies Between them the neatly capped heads of the Japs could be seen Heads of tall Mohammedans and Sikhs with their huge turbans towered above the small Japanese masses of blue shirted Americans rubbed shoulders with the khaki covered Welsh fusiliers British middies in khaki rode about on Chinese ponies It was a jumble of races from lands that touch around the earth A mile away over the wall and across the plain the Chinese hordes on the ramparts of their great walls were hurling shells and bullets defiantly at the combined great nations of the world for from the other side the Russians and Germans were attacking

Through the great gateway the tide of human beings surged back and forth With hoarse cries the Japs rushed their guns through Then the pack animals with ammunition followed They ran forward amid the ruins of buildings into a mist of blue smoke where dim figures were moving and the unceasing rat tat tat of the machine guns was pointed by the heavy crashes from the field pieces Some infantry was sent through and the fire of the small arms sounded like the crackling of tiny twigs in a great blaze Overhead the Chinese shells tore the air One struck the wall of the gate and covered our clothes with dry earth Soon the Sikh artillery mounted the wall overhead and the concussion from their guns shook us as we stood

Now the tide of men had stopped rushing through the gate and a bloody stream of wounded began to flow back Twisted dirty heaps that a few minutes before were bright tidy Japanese soldiers were brought out and laid in rows On their clothes were great Venetian red patches grayed with mud and covered with swarms of ravenous flies A few writhed and groaned others lay still One seldom looks twice to tell the dead there is a color a something indescribable that tells when life is gone Often the living were more awful to look at than the dead I had seen men shot with bullets but this was the first time that I had seen bodies mangled by shells

Shells were screaming through the air and sometimes striking the dry sand into clouds among the houses and the graves and a perfect hail of bullets chipped the walls or buried themselves in the dry mud I watched a little body of French soldiers coming down toward the gate A shell struck among the foremost group and toppled them over like ninepins There was nothing lacking in this arena of fire and death of those elements of spectacular and dramatic interest which the world associates with war—the dead horses and human corpses, the ruined smoking buildings the roar of guns and the rattle of infantry the long train of wounded and the hideously mutilated dead the shells bursting in mid air or exploding on the earth while the plainly visible fragments flew up in a fan shaped spread amid a cloud of driven sand the quiet heroism of the officers and the dash of the men and added to all this there was the new element the union of races alien until they met on the field and the little acts of kindness between the white and the brown races where words could not be spoken With all its horrors it was grand On such a day the commonplace and the ordinary are driven from one's mind The game is a mighty one and the stakes are life and death Until one has seen men in battle it is impossible to truly understand the human race or grasp the fullness of words that speak the history of nations

The Japanese loss was appalling Terrible rows of dead and wounded were lying side by side behind the great mud wall Pitiful attempts at shades were put up to keep away the rays of the merciless sun that beat straight down on the burning sand Ghastly patches of ravenous flies swarmed on every wound and every bandage Every little bloody [illegible] drop of blood that had fallen on the sand was black with this living plague and the air was alive with [illegible] excitement [illegible] their horrid feast —(Sydney Adamson's China letter in Leslie's Weekly

GRANDMOTHER'S FINERY.

Happy is the Girl Who Has a Goodly Store of Antiques to Draw Upon.

Any girl finding a bit of antique embroidery an old brooch or fob is now the envy of her acquaintances" writes Emma M Hooper in the September Ladies Home Journal "The fob is worn with the chatelaine watch odd brooches are set as belt clasps and the embroidery figures as a yoke, [illegible] or revers on waist or jacket—no matter how old the silk cloth or velvet may be or where it came from so long as it is antique New buttons for ornamental purposes for buttons are not supposed to be useful nowadays resemble ancient brooches and lovely pendants are of the old fashioned miniatures Grandmothers who saved such bits are now in high favor for 1900 is a dressy year with bizarre effects softened by good taste and beautiful tints Black trimmings may be worn with all colors much white and cream for neckwear and frontings are correct and the combination of black and white [illegible] accepted with favor Quantities of garniture are lavished on the corsage.

ART AT THE PAN-AMERICAN

On the Artistic Side the Exposition Will Be Great Success

FEATURES WILL BE NUMEROUS

W A Coffin Will be Director of Art—Wonders of Hawaii—Pan-American Course at Chautauqua

Buffalo N Y Sept 24—With the appointment of William A Coffin art critic of the New York Sun and a painter of national reputation as the director of art of the Pan American exposition the work of creating for that exposition an exhibit of the fine arts has been auspiciously begun

On the artistic side the Pan American exposition promises to be a most notable success I speak now not merely of the exhibit of the fine arts that will be housed in the beautiful Albright gallery which is being built of white marble at a cost of $400 000 but of the art features of the exposition as a whole One cannot appreciate the extent and variety of these features without remembering that the whole great enterprise has been planned with the view to attaining unity and harmony in design and execution throughout and avoiding altogether that conflict of ideas likely to arise where there is not close co operation for the purpose of attaining this unity Everywhere within the precincts of the Pan American the eye will feast upon sculptural adornments which will constitute a conspicuous artistic feature of the exposition The statuary will not be confined to the fine arts exhibit within the walls of the Albright gallery interesting though that will be but will be used in the adornment of the Court of Fountains the Triumphal Bridge the Esplanade the Plaza the Electric Tower entrances to buildings and in many other ways Sculptors of world wide repute under the supervision of Karl Bitter director of sculpture are now at work preparing for the exposition more than 1[illegible] original groups of statuary which will be used in this manner in general adornment of the buildings and grounds The statuary will harmonize with the purpose and architectural character of the buildings and the color used in the decoration of the latter will also contribute to the general impression of harmony To obtain this effect the director of color Charles Y Turner N A has made the effort of his life The delicate tints and [illegible] hues which will be given to the staff exteriors will be imparted according to a carefully studied plan prepared according to definite ideas and with the view to attaining a general effect which will be absolutely unique and at the same time charming and fascinating to a marvelous degree The mural decorations will thus contribute to the enhancement of the beauty of the Spanish Renaissance architecture and the garden embellishments and horticultural features are in their turn designed so as to give the buildings themselves their most suitable and artistic landscape setting In a word there is unified composition in form color landscape decoration and sculptural adornment

Therefore to find the art side of the Pan American exposition one should not stop at the entrance to the grounds and rest content with the idea that the Albright gallery which is situated there contains all that the art lover need make effort to see Yet one cannot doubt that the fine arts exhibit in itself will be a most notable one and worthy of an exposition so extensive as the Pan American promises to be With so noble a building as this gift of Buffalo's generous citizen Mr J J Albright in which to display the collection Mr Coffin has an ideal opportunity and his past achievements in the field of art give abundant assurance that he will make good use of it The general idea is to gather a collection which without being too large will be thoroughly representative of the achievements of the painters and sculptors of the American continent Mr Coffin is well qualified to exercise the discrimination necessary in the execution of such a task He was born in Allegheny Pa on January 31 18[illegible] He received a liberal education being graduated from Yale in 18[illegible] and pursued a course in art in New York after which he went to Paris and studied under the direction of Leon Bonnat In 1882 he returned to New York and opened a studio He became known as a painter of landscapes and of figures and his pictures were hung in the Salon in Paris and at the exhibitions of the National Academy in New York He received a medal at the Paris exposition of 1889 and has won several American prizes He is a member of numerous societies of an art character He [illegible] of the New York Evening Post and the Nation from 1886 to 1891 and has since been art writer for the New York Sun and a frequent contributor to the Century Magazine on art subjects

In a Pan American exposition it is appropriate of course that the purpose of the exhibit of the fine arts should be to show what has been achieved in this field of human effort upon the American continent The exhibit will therefore be confined to the works of painters and sculptors of this continent and collections owned by residents of Pan America This will make the exhibit pre eminently Pan American and at the same time will afford an opportunity for the exhibition of works of art representing the best that has been produced in other parts of the globe The policy which should be followed in this respect has received the most careful consideration and it is believed that which has been adopted will make it possible for the best results to be attained As to the scope of the exhibit one cannot speak further than this until the rules and regulations are adopted

The splendid building which is to be the art palace of the exposition and is afterward to become the permanent home of the Buffalo Fine Arts Academy the Albright Gallery has now reached a stage of construction where its fine proportions begin to be seen Several months were consumed in laying the foundations and quarrying the marble The walls are now rising and the building will be rapidly pushed to completion

Wonders of Hawaii.

The attention of young American ladies seeking opportunities for favorable matrimonial alliances is hereby directed to our new territory—the Paradise of the Pacific the erstwhile kingdom of Queen Lil A study of the statistics of population in Hawaii presents an interesting situation The foreign born population of the Hawaiian Islands is about 50 000 40 000 males and 10 000 females That is there are about four men to one woman among the foreigners of these enchanted isles In the time of that irascible monarch King James I a shipload of buxom lassies was sent to the colony of Jamestown on matrimonial intent and in the story "To Have and To Hold" it is related in some detail to what a premium each girl went in the matrimonial market when she landed in these Virginian wilds So much was each in demand that she could make an excellent bargain before the match was concluded

A similar situation one would think, must exist in Hawaii To be sure a large proportion of these eligible Hawaiian bachelors are Chinese gentlemen but if a girl is not particular as to color the opportunities are unsurpassed and she may easily aspire to living in a beautiful mansion on Nuuanu [illegible] Honolulu [illegible] basking beneath the banyan trees the stately eucalyptus the symmetrical mango and the spreading tamarind What girl might not be tempted by a chance to live where it is always afternoon and where the old residents say one has to turn around twice and scratch his head [illegible] whether Christmas or the 4th of July comes next

I imagine that there will be few things more fascinating to the average tourist at the Pan American exposition than the exhibits which illustrate one or another phase of life in this most attractive [illegible] of the United States situated far out in the wide Pacific Though it is now a part of the United States but few residents of the main land of America have had an opportunity to [illegible] personally [illegible] with its interesting and [illegible] characteristics and the nature and [illegible] of its population No great [illegible] has [illegible] on this continent since [illegible] part of the American union and the Pan American exposition will afford the first opportunity for any adequate display of its wonderful [illegible] and strange native institutions The progress which [illegible] made since [illegible] shaky throne and a republic [illegible] part of [illegible] the United States has been marvelous Indeed [illegible] the islands now enjoy a prosperity which would have been long [illegible] monarchs [illegible] is his late majesty King Kalakaua

Among [illegible] in general know so little about the history of these islands previous to the revolution which resulted in their annexation to the United States that it may not be amiss to say right here that it is about 120 years since civilization was introduced into the islands and that they have been inhabited about 1400 years It was in 1778 that Capt Cook discovered the islands and his discovery was not the first as several other navigators most of them Spaniards had previously made the [illegible] The aboriginal people are supposed to belong to the same race as the tribes of Samoa Fiji and Tahiti The ancient Hawaiians were barbarians rather than savages They were never cannibals The last pagan king was Kamehameka who died in 1819 leaving two queens who renounced the idolatrous customs of their ancestors and Christianity thereafter made rapid progress in the islands The Kamehameka dynasty ended with the death of Kamehameha the Fifth in 1872 and thereafter the islands were ruled by constitutional monarchs the last of whom was Queen Liliuokalani

One never thinks of Hawaii without thinking also of its volcanoes chief of which is that of Kilauea One of the greatest attractions of the Pan American Midway will be a marvelously realistic reproduction of this volcano and in connection with it a Hawaiian village [illegible] the picturesque and strange [illegible] of ancient Hawaii as well as the scenes of later years will be portrayed Volcanoes are rare institutions within the territory of the United States and it is safe to say that very few of those who will come to the Pan American exposition have ever seen such a wonder of nature actually spouting its fire The one which will be seen on the Pan American Midway will come so near to being an actual volcano that the spectator will almost think that he is really and truly in the presence of such an awe-inspiring phenomenon Mauna Loa the home of the Goddess Pele which is one of the trio of Titanic sentinels which have stood guard for centuries and served as huge chimneys for the gases from the earth's bosom is situated on the southern side of the Island of Hawaii It rises to a height of over 13 000 feet above sea level and on its flank is the volcano of Kilauea The crater is 3 000 feet above the level of the sea and in the center of a great plateau more than seven miles in circumference The pit varies in depth according to the activity of the volcano but compared with it the craters of Vesuvius and Aetna are as a gas stove to a carborundum furnace In the reproduction at the Pan-American exposition the precipitous sides of the crater will be crowned by irregular masses of rock and lava while the interior will be a seething red hot lake of molten lava from which will arise plenty of [illegible] making a spectacle weird and sublime The volcano of Kilauea is not a steep cone vomiting fire smoke ashes and lava from a hole at the top but is a vast sink nine miles in circumference and from 500 feet to 1 500 feet in depth The floor of the [illegible] is an undulating frozen sea of black glistening lava gnarled and twisted into a thousand fantastic shapes and here looking like a mighty pack of black ice and there like the Whirlpool Rapids of Niagara carved in black granite On the east side of the crater luxuriant tropical [illegible] down the banks to the very floor of the crater vividly contrasting its delicate ferns and creepers its brilliant scarlet blossoms and its [illegible] shaded green foliage with the glistening black of the freshly frozen lava There is a perpetual change in the conditions of the volcano and a corresponding change in the landscape the volcano exhibiting these five characteristics 1 Lakes of Molten Liquid Lava 2 Blow Holes [illegible] Lava Flows 4 Upward thrust of masses of rock by the pressure of the subterranean lava, 5 Breakdowns

Lakes of liquid lava are found in no other volcano and this feature of the Pan American Midway represents with marvelous accuracy one of the greatest of the natural wonders of the world The building in which this volcano is shown will be 150 by 1[illegible] feet in depth and the whole concession will be [illegible]00 feet in depth the cost of the production being more than $[illegible]0 000 The volcano will be created from sketches and studies made by Walter W Burridge an English artist of repute who spent more than two years in the Hawaiian Islands for this purpose

Scarcely second in interest to the volcano will be the Hawaiian village which will be among the most fascinating of the ethnological and anthropological exhibits at the exposition, [illegible] in the Hawaiian Islands just as travelers see it who cross the Pacific for that purpose will be truthfully portrayed The village will include native Hawaiians in all phases of civilization from the ancient Kahunas or medicine men practicing their craft on the credulous natives to the educated Hawaiian of to day One of the principal sights will be the making of Poi the principal food of the natives and a Poi Hale or Poi factory will be in full operation Among other customs represented will be the native feasts called Louau, which will be given every day and the Hulu Hulu dance one of the most startling and novel performances ever witnessed in any country which will be produced by native men and women This will be given in the theater to the musical accompaniment of the native [illegible] the Teranach Ule Ule and Frual

Next to a visit in Hawaii itself a visit to this feature of the Pan-American Midway will give one the best idea possible to obtain of the beautiful and wonderful scenes in this garden spot of the Pacific where Mother Nature has done her utmost to make existence like what an enthusiastic poet has described as "one grand sweet song

Pan-American Course at Chautauqua

In its formal endorsement of the object of the Pan-American exposition the congress of the United States declared that it would be of vast benefit to the commercial interests not only of this country but of the entire hemisphere The commercial interests are most important but that is not the whole story The Pan American has the broadest aims and one of its most important results will be the educational influence it will have upon the peoples of all parts of the continent It will stimulate for instance the study of Spanish by English speaking residents of the continent and the study of English by residents of Latin-American countries "From this study and from the closer commercial and social relations which will be effected will come greater knowledge of each other's institutions and customs and as a result of such better understanding friendlier sentiments generally

As one means to the end described it is proposed to establish at the great summer school at Chautauqua as a part of the curriculum in the College of Liberal Arts a course in Spanish for English speaking students and in English for those whose native tongue is Spanish Such a course ought to become very popular during the Pan American season and by the opportunity afforded to residents of Canada and the United States and of Latin American countries to come in personal contact in the classes of this famous summer school should further materially the broad aims of Buffalo's exposition

Edward Hale Brush

Steel Forks in White House.

Writing of "One Hundred Years in the White House" and recalling some of the notable entertainments given by our Chief Executives Rene Bache in the September Ladies Home Journal says that "President Madison revived much of the formal ceremony which Thomas Jefferson had discarded and under his administration great attention was given to the state banquets no expense being spared in making them as fine as possible President Jackson disliked ceremony even more than did President Jefferson, and preferring a steel fork himself he always provided each guest with one silver fork and one of steel After dinner he smoked a long [illegible] pipe He wished to throw the doors of the White House wide open to the public but this idea he was forced to relinquish after the experience of one occasion on which he extended an ill judged hospitality to all comers The carpet in the East room was ruined by punch which the mob spilt in its eagerness to get at the buckets containing the beverage the gowns of many ladies were spoiled and the furniture was broken At his farewell reception President Jackson [illegible] novelty in the shape of a gigantic cheese which was cut into pieces and distributed among the guests"

Acquire a Good Vocabulary

"A good vocabulary is acquired by reading good books as well as by hearing the talk of those who express their [illegible] the speech of educated [illegible]" writes Margaret E Sangster in the September Ladies Home Journal Thought lies back of speech and the more subjects interest us the more command of language we shall have in which to describe them They who read scientific books will have a grasp of scientific terms They who discriminate nicely and use the very best word to say what they have in their minds will consult a dictionary and see what are the similarities or contrasts of certain words will choose as among gems the flawless ruby or crystal will not be satisfied except with the exact word which can express precisely the meaning they wish to convey The reading of good authors lifts our vocabulary from meanness and meagerness to nobility and splendor enriches our speech with words which are like a beautiful embroidery on the garment of daily life and furnishes us with allusions quotations and phrases which are picturesque, apposite or convenient for illustration

A PAIR OF SMARTLY GOWNED SCHOOL GIRLS.

School gown of rough blue and red checked material Plastron and apron of plaited red cashmere bordered with blue velvet piped in red taffeta sailor collar of velvet and taffeta. Second figure shows a gown of almond green cashmere made with a plaited skirt hung on a long pointed yoke Plastron of white China crepe Revers and bretelles of black velvet.

LAST DAYS OF PRETORIA

Richard Harding Davis Says Boers Are Fighting for What We Fought for in 1776

I had entered Pretoria in the days of her successes and I was deserting her at the moment of her fall I do not know when I have left a place with as heavy a heart and as the train at last pulled free of the old town and ran parallel to the Middleburg highway each mounted [illegible] it passed seemed as he waved his sombrero to beckon us back again The great veldt throbbing in the heat of the sun and flashing with brilliant yellow lights and purple shadows seemed to reproach us The hot barren kopjes with their stunted cacti the splashing waterfalls and the twisting white river that raced the train all filled me with regret They had never looked more beautiful or more to be desired or more as the scene set for a country men would choose to call home The sight of the men to whom it was home who were fighting for it and who [illegible] to continue to fight for it stirred me with pride in them I saw them for the last time even as I was steaming away from them [illegible] other interests and other friends They were jogging patiently through the high grass on our right and spreading out [illegible] over the red kopjes that lay between them and Irene where the sultry air was laden with the heavy vibrations of hot throated guns They trotted forward [illegible] dependent fighting man with his rifle and blanket swung across his shoulders with his [illegible] water bottle rusty coffee pot and bundle of green fodder dangling from his saddle I knew as the train carried us away from the sight of them that no soldier in pipe clay gauntlets and gold lace would ever again mean to me what these burghers meant—these long bearded strong eyed Boers with their drooping cavalier hats their bristling bands of cartridges their upright seat in the saddle and the rifle rising above them like the lance of the crusader They are the last of the crusaders They rode out to fight for a cause as old as the days of Pharaoh and the children of Israel against an enemy ten times as mighty as was Washington's in his war for independence As I see it it has been a Holy War this war of the burgher crusader and his motives are as fine as any that ever called a minute-man from his farm or sent a knight of the Cross to die in Palestine Still in spite of his cause the Boer is losing and in time his end may come and he may fall But when he falls he will not fall alone with him will end a great principle the principle for which our forefathers fought—the right of self government the principle of independence—(From The Last Days of Pretoria by Richard Harding Davis in the October Scribner's

Clark Tries Comedy.

Pink tights are to supersede free silver the cakewalk will push aside imperialism black face comedy is to crowd out the trusts and the skittish soubrette will answer the "full dinner pail" in the Democratic campaign of Montana in a few days

Sketch artists and vaudeville "head liners" of Chicago are studying maps of Montana and the time tables of railroads that lead to Butte Leading juvenile and heavy walking gents are hunting for the man who wants forty artists of the continuous-performance variety to help William A Clark get back into the United States senate

For a week song and dance teams club swingers cake walkers vocalists balladists contortionists lightning change artists impersonators skirt dancers equilibrists soubrettes and [illegible] comedians have been mixing the Clark Daly brand of Montana politics with their stunts The word was flashed along the circuit that millionaire Clark the interrupted senator from Montana had laid aside a couple of days to come to divide among the Chicago footlighters It became known that his agent was in the city to buy big tents calcium lights moving picture apparatus circus seats and gags

Night before last Ren Shields formerly of the parody team of Maximilian and Shields Ed Loftus song and dance man, and George Moore vocalist started for Butte Mont with transportation in their pockets and prospects of prosperity ahead They told their envious colleagues that each had been hired for $150 a week by Senator Clark's agent to work their specialties for the Clark Democrats in Montana They said that they had been instructed to report to Clark's man in Butte

It seems that the man whose income is only a million a month intends to put some new frills on the Clark Daly fight of Montana According to a Chicago theatrical manager he is going to repeat in the state where it costs a couple of million dollars to buy a reserved seat in the United States senate the campaign tactics of Billy Lorimer only the Clark enterprise is to be on a larger scale According to the theatrical man Senator Clark is going to turn vaudeville and variety shows into vote getters It is his purpose to send half a dozen shows under big circus tents over the state with his spellbinders the sketch artists to draw the crowds and the stump speakers to round up the votes

Letters and telegrams addressed to Senator Clark which reached the Auditorium Annex yesterday indicate that he will be in Chicago today or tomorrow —(Chicago Record

War in Romance and Reality.

We have read in Vanity Fair and lately seen in a play something of the terror and the mad haste to escape of the people of Brussels on the eve of Waterloo That is the obvious and dramatic side That is the picture of war which you will remember and which people prefer They like the rumble of cannon through the streets of Ventersburg the silent, dusty columns of the reinforcements passing in the moonlight the galloping hoofs of the aide suddenly beating upon the night air and growing fainter and dying away the bugle calls from the camps along the river the stamp of spurred boots as the general himself enters the hotel and spreads the blue-print maps upon the table the clanking sabres of his staff standing behind him in the candlelight whispering and tugging at their gauntlets while the great man plans his attack You must stop with the British army if you want bugle calls, and clanking sabres and gauntlets They are a part of the panoply of war and of warriors. But we saw no warriors at Ventersburg that night only a few cattle breeders and farmers who were fighting for [illegible] and the bushmen and who stopped to [illegible] their ponies and to smoke a pipe on the vine covered stoop of Jones's Hotel and with them a mixed company of [illegible] men adventurers, American cowboys, Russian princes Swedish miners and officers of the French and German armies gathered around a table discussing other days in other lands The picture of war which is most familiar is that one of the people of Brussels fleeing from the city with the French guns booming in the distance or the one seen in "Shenandoah," where aids gallop on and off the stage and the night-signals flash from both sides of the valley But the other side of war is the night before the battle at Jones's Hotel the landlady in the dining room with her elbows on the table, fretfully deciding that after a day in front of the cooking stove she is too tired to escape an invading army declaring that the one place at which she would rather be at that moment was Green's restaurant in Philadelphia.—(From "The Last Days of Pretoria," by Richard Harding Davis in the October Scribner's.

Dividend Payers

Every investor in Cripple Creek stocks should have at least one or two of the dividend-paying stocks among his holdings, to return some interest on his investments. We specially recommend the purchase of ELKTON and GOLD KING. These stocks are reasonable in price and should be purchased at once. PORTLAND is another of the safe and sound dividend paying stocks.

Prospective Dividend-Payers

In addition to the dividend-payers, every investor should have stock in those companies which give promise of soon entering the ranks of dividend-payers. Among these we specially recommend JACK POT, EL PASO and BULL HILL CONSOLIDATED. The former is selling around 45 and the latter around 75, and they offer splendid investments at these figures.

The Cheaper Stocks

It is also desirable to hold a few of the good cheaper stocks which give promise of early and substantial profits. Among this class we recommend Cripple Creek Gold Exploration, Ingham, Coriolanus, Battle Mountain, Little Puck, Rose Nicol, Rose Maud, Progress, Molly Dwyre, Grace Gold, Wideawake and Morning Star

THE CROSBY-EHRICH SYNDICATE

Brokers, Mines, Stocks and Investments

Rooms 59-66 Hagerman Building, Colorado Springs, Colo., U. S. A.

Cable Address: "SYNDICATE, COLORADOSPRINGS."

"When the frost is on the pumpkin," etc.,

Is high time for you to have your *heating apparatus* overhauled and your *plumbing* repaired. If you intend putting in your homes this fall a *hot water* system, we are in a position to make very low estimates of the cost. We furnish *artists* in our line to install these plants and do *plumbing*. Do not forget **'Phone 599** when needing our services.

W. B. & E. F. St. John's Company.

The Gazette is the Only Newspaper in the State with Its Own Private Wire to the Colorado Springs Mining Stock Exchange.

THE COORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Sept. 27.—The market today on 'change was far from encouraging, and a general depression was suffered in mining circles in consequence of the depressed prices on 'change. However, the wise ones are philosophical and many of those who deplore the weakness of the good stocks are going quietly and buying according to their means. It may be that the low prices, with an occasional rally, will prevail until after the presidential election, but it seems so unlikely that they can get much lower that the majority of the brokers are advising their clients to get in now. One of Dooley's friends, taking the advise of some promoter, got in "on the ground floor" of a certain proposition, but, as Dooley put it, dropped through to the basement. It is not impossible that buyers now might find themselves placed in a similar position. But the wise ones say that it is better to get in safely and go to the basement than to *get left on the upward trip afterwards*. The elevator will probably not stop but a second at the basement, and from that point the journey upwards will be made without a stop.

There were very few stocks which attracted attention. All seemed to combine to be uninteresting. Elkton, after having declined in the morning to $1.64½ under heavy trading, sold only lightly in the afternoon, and at the same price. Isabella was stronger, and sold up to 87. Coriolanus and Dante gained fractionally, as did also Lexington, but Portland was 10 cents lower, selling at $3.15, while Prince Albert was weak at 4¼. Cripple Creek Columbia was practically stationary at 11, Jolly Jane was firm at 6½, and Goldstone was a very good trader at 2¾; but Acacia was much depreciated, selling at 38 and Golden Age went for 2¾. Kaffirs, the Squaw mountain stock, sold at 3¼. In the pit call the trading was light, and prices off, as a rule. Gold Knob went for 10 cents, while Gold Dollar sold at 13¾. The trading for the day amounted to 687,239 shares exchanged, of which the cash value was $53,497.66.

EASTERN MARKETS

New York Stocks.

New York, Sept. 27.—Today's noteworthy advances in prices of stocks were primarily due to the existence of a large outstanding short interest. Manipulation against the shorts was also very obvious and in the hands of strong and resourceful interests. The bidding up of stocks carried prices swiftly away from the bears in the very crisis of their distress and there was a notable recalling of stocks which have been loaned to the shorts on advantageous terms for a long time past. This could hardly be the result of powerful manipulation to force the shorts to buy stocks to cover. But while the facts were obviously true the upward reaction could hardly have been precipitated or extended to the lengths it has without a strong revulsion of speculative sentiment from the depression which has induced the liquidation for some time past. Almost the entire credit for this revulsion must be given to the growing conviction, strengthened by *significant admissions* from authoritative sources, that active negotiations are going forward between the anthracite coal operators and the miners and that a basis of settlement has been formulated with good hope of success. The violence of recovery in prices on this development is astonishing, considering the small impression that has been made on the prices of coal carrying railroads since the strike has been in force and which has given the impression that there was little short selling being done on account of the strike. This supposition will scarcely hold in view of the large bear account which was disclosed by the conviction that a strike settlement is imminent. But it must be borne in mind that when *prices* are once forcibly diverted in a given direction Wall street on all points is made to conform to the new order of things. The mercurial minds of the speculators, in conformity with this rule, today threw off all their lowering apprehensions of the coming stringency of the money market. The downward plunge of sterling exchange of a full half cent in the pound for both actual and posted rates helped to this result.

Bonds improved in sympathy with stocks, the speculative issues leading. Total sales, par value, $830,000.

U. S. news 4s advanced ½ in bid price.

Chicago Grain.

Chicago, Sept. 27.—October wheat opened unchanged, the feeling being rather bearish because of favorable weather in the northwest. A report that the French crop estimate is now 53,000,000 less than a month ago, stiffened the views of holders and a reaction began. This was helped along by a liberal falling off in the aggregate receipts at the big western markets. These two factors were the chief influences in the advance of October to 77⅜@⅝. The bulge brought out profit-taking wheat and the market declined to 77¼, where it steadied on reports of good export sales, and the close was firm, Oct. ¼ higher at 77½@⅝.

Corn was quiet.

Oats were dull and featureless.

Provisions were dull but firm, sustained by a demand from local shorts and packers.

The Metal Market.

New York, Sept. 27.—A slight reaction was noted for tin in local metal circles today. Cables from London were £1 lower on spot and £1, 10s off on futures. This influence caused freer offerings here and closed our market weak at $28.70@$28.95. Lake copper, while rather easy abroad, was quiet and unchanged here at $16.75@17. Pig iron warrants ruled dull and lower to sell on the basis of $9.50@10. Lead and spelter were dull and unchanged at $4.37½ and $4.10@4.15 respectively.

Brokers' price for lead was $4 and for copper $16.87½.

The London Market.

New York, Sept. 27.—Commercial Advertiser's London financial cablegram: The markets here were idle, drooping and featureless today. Berlin sold heavily. The bank retains complete control of the money market, doing a large business. Silver closed at 29¼, the highest price since March, 1897. The India price is still rising.

The Coffee Market.

New York, Sept. 27.—Coffee, Spot—Rio steady; No. 7 invoice 8⅛; mild quiet.

TELEPHONE 262

There's Nothing Like It

in the east, west, north or south.

THE MORNING TELEGRAPH is concededly the brightest daily paper in the union. Its news of the day is concise. Its financial news is authoritative. Its theatrical news is complete. Its racing news is simply unapproachable. It has special features that cannot be obtained from any other source.

THE SUNDAY TELEGRAPH is as good as half a dozen other weekly papers put together. It gives you six times the entertainment the average weekly does. It is brimful of tale and anecdote of persons and things you know, you ought to know, or would like to know. It is a mighty interesting paper, with an interesting personality.

THE PICTURE SUPPLEMENT is not equalled by any other newspaper on the face of the globe. The pictures are timely, interesting, newsy and new. They are in some respects superior to the original photographs, and no amount of description could do them the justice that your own eyes would.

Sold everywhere, by every live dealer, every day in the week. If your dealer does not happen to have it on hand, insist that he get it for you. If he is the right kind of a man, he will supply you. If he won't supply you, we will.

TRIAL RATES FOR ONE MONTH

Sunday Only .... 25 Cents

Daily and Sunday .... One Dollar

LEGAL NOTICES

CALL FOR LEGISLATIVE CONVENTION.

Pursuant to the action of the joint legislative committees appointed by the El Paso County Republican County Central Committee and the Teller County Republican County Central committee, a delegate convention of said counties of El Paso and Teller, is hereby called to meet at the city of Colorado Springs, Colo., on Saturday, September 29th, 1900, at 2 o'clock p. m., for the purpose of placing in nomination three candidates for representative in the Thirteenth general assembly.

For such purpose, each of said counties will be entitled to the same number of delegates and alternates as were allowed in the Republican state convention, viz.:

El Paso County	62
Teller County	77

It is requested that the credentials of each delegation properly certified be submitted to the secretary at least two hours before the hour fixed for the meeting of the convention.

Fred Palmer, Secretary. D. B. Fairley, Chairman.

NOTICE OF FINAL SETTLEMENT.

In the Matter of the Estate of George Fenwick Gladstone Wildes, Deceased.

Notice is hereby given, that on Monday, the 29th day of October, A. D., 1900, being one of the regular days of the October term of the county court of El Paso county, in the State of Colorado, I, Mary Scott Gladstone Wildes, Executrix of said estate, will appear before the judge of said court, present my final settlement as such executrix pray the approval of the same, and will then apply to be discharged as such executrix, at which time and place any person in interest may appear and present objections to the same if any there be.

Dated at Colorado Springs, Colorado, September 27, 1900.

Mary Scott Gladstone Wildes,
Executrix of the Estate of George Fenwick Gladstone Wildes, deceased.

Some People Say

that coffee is injurious That is because they don't know what good coffee is

Chase & Sanborn's

Coffees are absolutely pure, therefore produce no injurious effects, and are the highest grade money can buy—

W. N. BURGESS,
Agent
112 N Tejon St.

Where Did That Headache Go?

If there was no cure for that headache there would be some reason for tolerating it But there is a cure

It is safe swift sure It goes right to the throbbing tearing pain and soothes it, and quiets it until in a few minutes you can straighten up and say Where did that headache go? Never mind it is gone It will not trouble you again soon

And then the medicine is so easy to take no bad smell no big capsule to swallow It is just a little tasteless wafer and after it is moistened it slips down your throat as easy as an oyster

People who don't enjoy having headaches ought to keep a box in the house all the time The name? "Instant Headache Cure"

We sell it.

Home Dreseed Ducks	14c
Home Dressed Turkeys	15c

Do not buy Stale Fish and Poultry which have been lying around the commission houses for a couple of weeks before your grocer gets it and do not pay the middleman's profit on anything when you can get it without—I receive my goods direct from the producer This is why I can make you the above prices and this is why I always have nice fresh stock. Not in the Trust

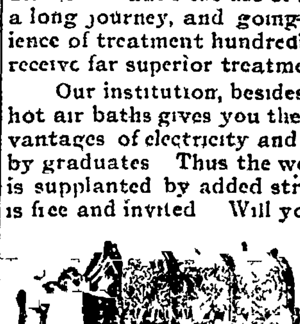

I. R. ROSS.

You need a Bath

Or a course of them to put your system in healthy condition What's the use of further weakening yourself by a long journey, and going to the expense and inconvenience of treatment hundreds of miles away, when you can receive far superior treatment right here AT HOME.

Our institution, besides having all the hot water and hot air baths gives you the further and strengthening advantages of electricity and massage scientifically applied by graduates Thus the weakening effect of the hot bath is supplanted by added strength instead Investigation is free and invited Will you come in?
